## Castle Alternative Invest AG in 2019

		December 2019	December 2018
<b>Net asset value up 4.3 per cent</b>	Castle Alternative Invest AG's ("Castle", "CAI" or the "Company") net asset value increased by 4.3 per cent in 2019. However, a distribution of CHF 4.95 from the nominal value of the shares caused the net asset value per share ("NAV") to decrease to USD 15.29. The annualised NAV return in Dollars since inception is +5.1 per cent.	USD 15.29 per share TUSD 77,915	USD 19.54 per share TUSD 129,382
<b>Cancellation of shares and capital reduction</b>	The annual general meeting ("the AGM") of the company, on 15 May 2019, approved a share capital reduction by way of cancellation of 1,565,322 shares. The cancellation process was completed by 2 September 2019 and the shares duly cancelled. Accordingly, the share capital of the Company has been reduced to 6,297,099 shares.	6,297,099 shares in issue	7,862,421 shares in issue
<b>Nominal value reduction</b>	At the annual general meeting on 15 May 2019, it was decided, among other things, to reduce the nominal share capital from CHF 5 to CHF 0.05 per share or CHF 314,854.95 by means of a nominal value reduction. This distribution was completed on 18 November 2019 (ex-date 14 November 2019).		
<b>Second line buyback for cancellation</b>	<p>On 12 November 2018, the board of directors of Castle Alternative Invest Ltd. ("the Board") decided to launch a new share buyback program on a second trading line at SIX Swiss Exchange. It started on 5 December 2018 (first trading day) and a maximum of 438,133 registered shares (maximum 5.57 per cent of the share capital and voting rights registered in the commercial register) could be purchased back.</p> <p>On 5 June 2019, the Board decided to terminate this share buyback program as the maximum allowed number of shares were bought back.</p> <p>At the annual general meeting on 15 May 2019, the Board was authorised to carry out further share buyback program up to a maximum of 10 per cent of the share capital.</p> <p>Based on that, on 5 June 2019, the Board decided to issue put options tradeable on SIX Swiss Exchange. Each shareholder was granted 1 put option free of charge for each registered share held. Every 20 put options entitled shareholders to tender one registered share with a nominal value of CHF 5 at the exercise price of CHF 24.00. This represented a premium of 31.15 per cent to the then current market price of the registered share. The put options were traded from 11 June 2019 to and including 25 June 2019. The put options were exercised on 27 June 2019 and the net purchase price was paid on 28 June 2019.</p> <p>In total, 308,544 registered shares were tendered which corresponded to 3.92 per cent of the share capital and voting rights registered in the commercial register.</p> <p>On 27 June 2019, following the termination of the buyback via issuance of tradable put options, the Board decided to launch a new share buyback program on a second trading line at SIX Swiss Exchange. It started on 1 July 2019 (first trading day) and a maximum of 321,165 registered shares could be purchased back.</p> <p>On 3 October 2019, the Board decided to suspend this share buyback program in order to decide on a buyback program of up to 10 per cent of its share capital as recorded in the Commercial Register on a further share buyback program by issuing tradeable put options.</p> <p>On 7 November 2019 Castle announced a share buyback program by issuing put options tradeable on SIX Swiss Exchange. The put options was traded from 22 November 2019 to and including 04 December 2019. Every 10 put options entitled shareholders to tender one registered share at the exercise price of CHF 17.90.</p> <p>In total, 565,315 registered shares were tendered which corresponded to 8.98 per cent of the share capital and voting rights registered in the commercial register. The net purchase price was paid on 9 December 2019.</p> <p>The suspended share buyback program via a second trading line was continued from 9 December 2019.</p> <p>On 7 February 2020, the Board decided to terminate this share buyback program as the maximum allowed number of shares were bought back.</p> <p>The buybacks mentioned above were all done for cancellation purposes.</p>		
<b>Share price decreased by 8.5 per cent in CHF, including the effect of the distribution of CHF 4.95 from the nominal value of the shares</b>	The CHF share price decreased 8.5 per cent on the SIX-Swiss Exchange during the year, from CHF 15.30 per share to CHF 14.00 per share. This move however included the effect of the distribution of CHF 4.95 from the nominal value of the shares. The discount to the NAV of the CHF shares narrowed significantly to 5.28 per cent in December 2019 compared to 20.31 per cent in December 2018.	CHF 14.00 per share	CHF 15.30 per share

## Chairman's statement

**Dear Shareholders,**

If ever we were to look for an unpredictability of stock markets, 2019 surely stands out as providing one. The stage was far from set for a good year in the final months of 2018. Back then, fears of more US interest rate rises, the effects of China's economic slowdown and a brewing trade war were driving investors out of stocks. Contrarians may disagree. They might have said sharp falls on world markets and extreme levels of investor pessimism in late 2018 made a substantial rebound in the year ahead more likely. They would have been right. What may have come as a surprise, even to them, is just how strongly markets rallied over the year. In aggregate, world stock markets added more than 20 per cent in dollar terms, no mean feat as the US currency held its value against other currencies. Also surprising were the performances of markets in the US and China, which spent most of the year in the eye of an international trade storm. In the US, technology companies were in the vanguard as the major indices sped to record highs, with the S&P 500 Index up 29 per cent and NASDAQ up 35 per cent, their best returns since 2013. Markets remained alert to signs the US economy was running out of steam, but they did not materialise to the extent feared; however, the impact of coronavirus has caused a sharp retreat in markets during Q1 2020.

By the end of 2019, the NAV of the underlying CAI portfolio had risen to USD 15.29 per share, an increase of 4.3 per cent for the year. The discretionary managers, who are expected to generate excess returns based on proven skills, delivered in general a positive result. Long/short equity managers achieved a 10.4 per cent performance and contributed with 4.5 per cent most to the overall result. The excess returns were based on good stock selection and tactical trading skills. All relative value managers closed the year with positive results of 9.9 per cent and moderate volatility, contributing 2.2 per cent to the overall performance. The event driven managers reported a variety of different outcomes. However, as a group, they were positive with 6.8 per cent, contributing 1.4 per cent. With regard to systematic strategies, trend followers were successful due to astute positioning, while macro managers had a difficult year.

On 5 June 2019, the share buyback program on a second trading line at SIX Swiss Exchange was terminated. With the end of the program and together with the completed buyback program through the issuance of put options in November 2018, the maximum number of registered shares approved by shareholders at the AGM in 2018 was reached. Consequently, the board of directors decided to launch

a further buyback program via the issuance of tradable put options during the course of June 2019. In total, 308,544 registered shares were tendered, representing 4.9 per cent of the share capital and voting rights. Following the termination of the buyback via tradable put options, the Company decided to launch a new buyback program on its second trading line, which started on 1 July 2019. A maximum of 321,165 registered shares can be purchased. For the second time, Castle launched a second 10 per cent share buyback program via within the course of a year addressing the prevailing discount level and enhancing trading liquidity. On 7 November 2019 Castle announced a further share buyback program by issuing put options tradable on SIX Swiss Exchange. The program started on 22 November 2019 and a total of 565,315 registered shares were tendered which corresponds to 8.9 per cent of the share capital and voting rights. During the same month, Castle executed its nominal value reduction from CHF 5 to CHF 0.05 per share as decided at the AGM in 2019 and this was completed on 18 November 2019.

Since 2010, CAI has launched regular share buyback programs at market price and by issuing tradable put options. During the past ten years, CAI has successfully completed nineteen share buyback programs which have helped significantly to narrow the discount from 26.2 per cent at the end of 2010 to just 5.3 per cent at the end of 2019.

The Company's 2020 annual general meeting is scheduled to take place on 13 May 2020 in Pfäffikon, SZ, Switzerland. The board welcomes the opportunity to discuss the progress of the Company with interested shareholders.

Finally, as your Chairman, I would like to thank you for your continuing support for the Company.

Yours sincerely,

**Tim Steel**  
Chairman of the board of directors

## Investment manager's report

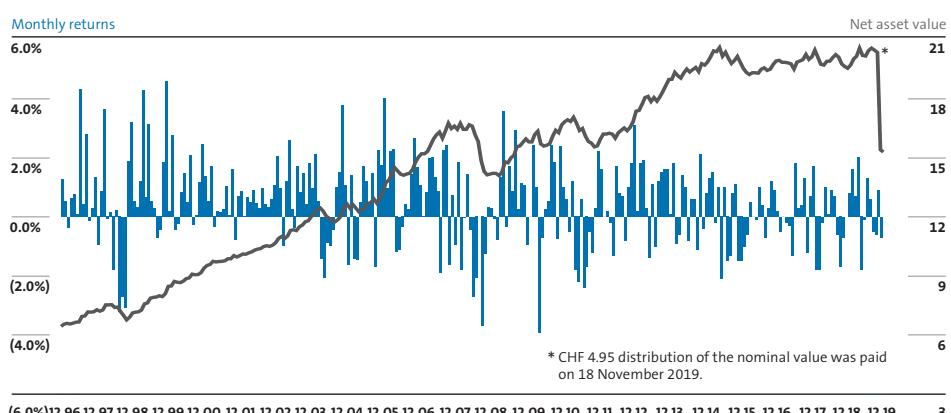

### Financial markets and hedge fund strategies

#### Macro backdrop

The gratifying performance of most asset classes in 2019 has to be assessed by including developments in the prior year. Specifically, the final quarter of 2018 was one of the worst in the then more than a decade long bull market. Back then, a confluence of tighter monetary policy, an intensifying trade dispute and softening business sentiment data raised fears of a recession and led to double-digit losses in equities and growth sensitive commodities. The first few weeks of 2019 saw a strong rebound as market participants anticipated a reversal of central banks' policy bias in support of economic growth. As the US Fed delivered three rate cuts and the ECB recommenced their bond purchasing program, the resurgent wave of global liquidity lifted the many boats in financial markets, from bonds to equities to gold.

Towards the end of the year, two of the most prevalent sources of uncertainty, namely the "trade war" and the "Brexit," eased somewhat. China and the US seemed ready for a preliminary accord and the UK was less inclined to leave the EU without a mutual customs agreement. However, political risks are unlikely to abate as inequality persists which leads to grass-root protests and pressures on governments around the globe. In that regard, the upcoming US presidential election is one of the topics for 2020 that will have to be followed closely.

**Development NAV Castle Alternative Invest AG in USD<sup>1)</sup>**

<sup>1)</sup> Before September 1999, CAI (Overseas) Ltd. pro-forma performance numbers (real numbers adjusted for currency hedging, net of management fee and performance fee but gross of cost on CAI AG level).

## Markets

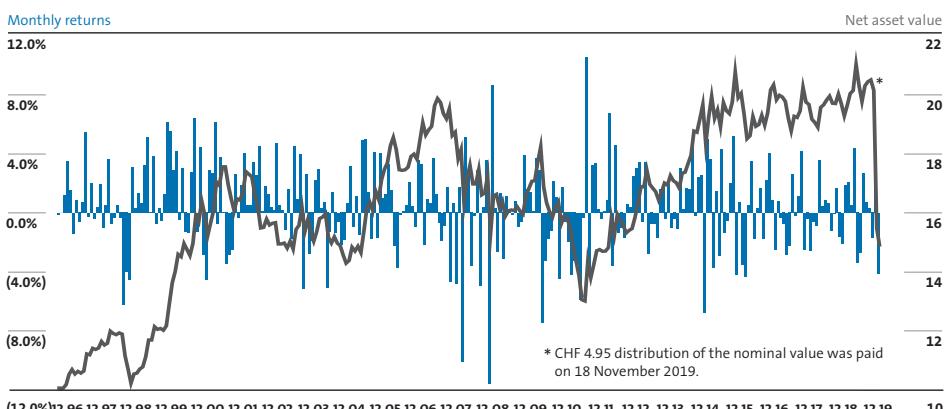

In equities, the US market confirmed its leadership, most notably over developed Asian and most emerging markets as the trade dispute lingered on and continued to weigh on export-reliant economies. However, both emerging market equities and debt saw gains as central banks from Mexico to China joined in monetary easing and raised fiscal stimulus. At the same time, idiosyncratic domestic issues continue to haunt certain developing countries. Argentine's surprise ousting of the reform-friendly president and the consequential flight of international investors is a case in point.

In fixed income, both base rates and credit spreads decreased, leading to solid performance in both government and corporate bonds. Inflation-linked bonds lagged, however, as inflation expectations remained subdued given the rather sluggish global economic growth. Yield proxies, such as REITs, were also well-supported but returns from insurance-linked strategies were curtailed by a series of natural disasters.

In currencies, the US Dollar remained firm against most major currencies despite the fact that the US Fed accomplished the most intensive U-turn in their rate-setting policy. The conundrum is perhaps most evident in the Dollar's strength versus Scandinavian currencies, wherein the Norges Bank was one of the few Central Banks worldwide that hiked rates during 2019 and the Swedish Riksbank plans to do the same in 2020. Finally, "cable" (the USD/GBP exchange rate) was one of the most volatile major crosses, as pound sterling was subject to the political gyrations around the "Brexit" saga.

Trade war tensions between US and China had also their impact on commodities, for instance on copper which suffered from a slowdown in infrastructure projects. Oil had a volatile year but ended the year on an upwards trend as the OPEC+ countries managed to agree a deal to cut production towards the end of Q1 2020. Precious metals and gold prices rose based on a combination of several factors, but monetary policy has also been one of the key drivers. The first quarter of 2020 has seen a sharp increase in the volatility of all financial markets and significant decline of global equity markets and related asset classes, due to the COVID-19 pandemic.

10

## Castle Alternative Invest AG

### Hedge fund strategies

**Event driven** added 1.4 per cent to Castle's returns. Best results came from two US based managers, who profitably exploited idiosyncratic situations across a diversified set of opportunities (credit, M&A, etc.).

**CTA/macro** strategies as a group added approximately 0.8 per cent to Castle's returns. CTAs ended the year in positive territory driven mostly by trend-following strategies, while quant macro managers had mixed results. CTAs – in aggregate - started the year with a long positioning in bonds and a short positioning in equities and – by the end of the year – this exposure profile had been reversed. Most gains were accumulated within bonds followed by positive contributions from equities, currencies and precious metals. Energy contracts, oil in particular, and industrial metals detracted from the performance.

**Long/short equity** strategies added 4.5 per cent to Castle's returns and was the best performing allocation in the portfolio. All but one manager ended the year in positive territory, with the largest contributions from US and Europe while the Asia allocation was flat. The best results were achieved by a US manager with a focus on TMT, semiconductors in particular being an actively traded sector. Also, an European manager was able to generate significant alpha thanks to its very active trading style especially during the more volatile periods in Q2 and Q3.

The **relative value** allocation contributed 2.2 per cent to the portfolio as all managers ended the year in positive territory. An Asian strategy posted best results followed by a manager with a focus on convertible arbitrage.

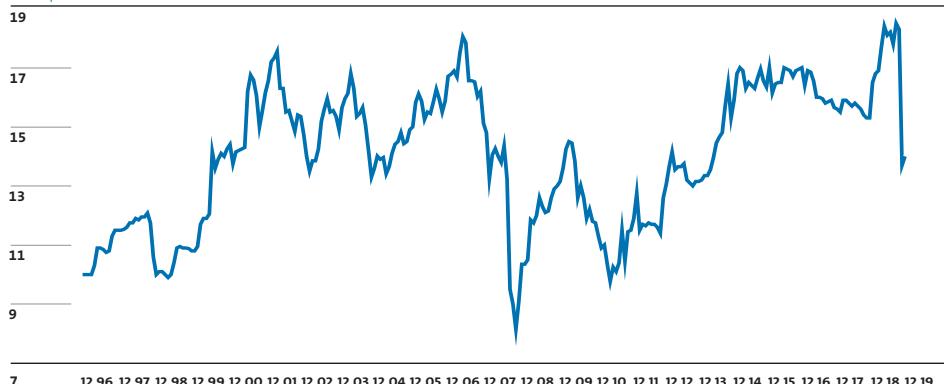

## Alternative investment industry and outlook

The non-investable HFRI Fund Weighted Composite Index returned a gain of +10.4 per cent in 2019.

The industry assets recorded a net outflow of USD 43.1 billion, with overall assets amounting to USD 3.3 trillion. The total number of hedge funds and fund of funds as of year-end stood at 9,656, which represents a slight decrease versus the end of 2018 level.

## Investment policy

### Investment objective

The Company's investment objective is to provide shareholders with long term capital growth through investment in a well diversified and actively managed portfolio of hedge funds, managed accounts and other investment vehicles.

### Investment policy

The Company invests through the Cayman Subsidiary (which is wholly owned by the Company) into Castle Alternative Invest (International) Plc ("CAI Ireland"). Accordingly, the investment policy of the Company is consistent with CAI Ireland. Any change to the investment objective or any material change to the investment policies of CAI Ireland requires approval of its shareholders by ordinary resolution or unanimous consent. In the event that a change to the investment policy is approved by an ordinary resolution, a reasonable notification period will be given to investors in CAI Ireland to allow them to redeem their shares prior to the implementation of such a change. In the event that CAI Ireland changes its investment policy the Company will take such action to ensure that the Company is not in breach of any applicable regulation.

CAI Ireland invests in a diversified global portfolio of hedge funds, managed accounts and other investment vehicles that employ various non-traditional investment strategies that usually belong to the following broadly defined main strategy classes:

#### Long/short equity

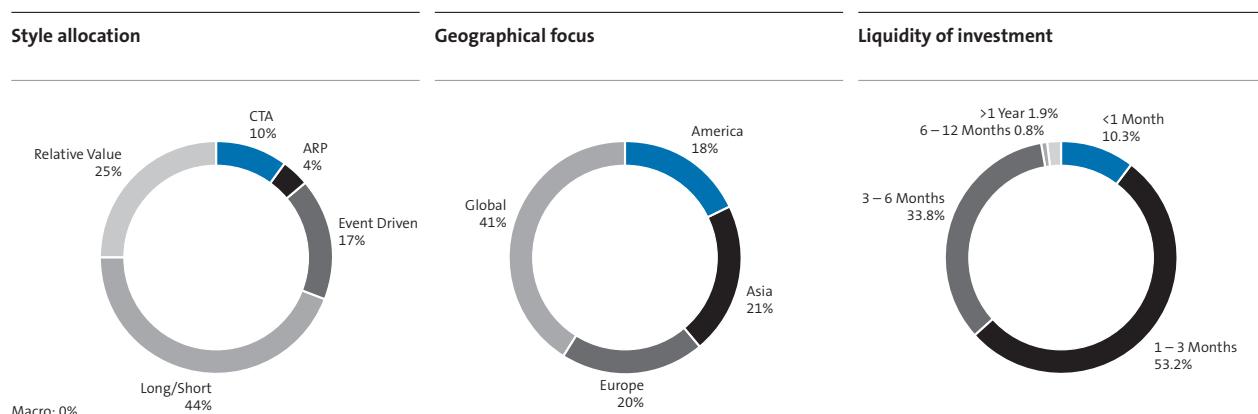

Long/short equity strategies represent the classic hedge fund investment style, taking both long and short positions in equity securities and derivatives thereof with various levels of gross and net exposure. The strategies mainly depend on stock picking, trading skills and portfolio risk management. The strategies may rely on fundamental, macro and sector analysis along with both bottom-up and top-down research.

#### Event driven

Event driven strategies are designed to benefit from the consummation (or non-consummation) of various corporate events such as re-organisations, mergers or acquisitions, bankruptcies or various other situations. The strategies may be executed using a wide range of instruments, including common stock and debt instruments as well as various derivative instruments, with various levels of leverage.

Per December 2019

#### Estimated performance of styles before cost in USD

**Relative value**

Relative value strategies are designed to exploit observed differentials across related market prices. Managers execute individual trades – at times through sophisticated structures – based on expectations that such differentials will probably narrow (or widen) and/or embedded options, futures etc. may be re-priced. The strategies may be applied across various instruments, including derivatives and over-the-counter instruments, with various levels of leverage.

**CTA/macro**

CTA/macro strategies mostly attempt opportunistically or systematically to exploit pricing trends in global markets, including interest rates, equities, currencies and commodities. The strategies rely on macro-economic assessment or systematic trading models that may apply various methodologies. The strategies are primarily executed through listed financial and commodity futures, options or swaps as well as currency instruments with various levels of leverage.

**Asset allocation**

Whilst the Company aims to invest into the four main strategy classes in a balanced proportion over the long term, the assets invested in any particular strategy class (determined on a look-through basis to the investment at fund level) may vary from time to time but will not in any event exceed 50 per cent of the value of its assets at the time the investment is made without prior shareholder approval.

The Company will invest and manage its assets in a way which is consistent with its objective of spreading investment risk.

The Company may invest through investment entities managed or advised by the investment manager (or any of its affiliates) to optimise its access to and/or returns from certain investment strategies as long as the investment manager (or any of its affiliates) waives, or compensates the Company for, any additional management and/or performance fees on the management of such vehicles.

The Company investments may include limited partnership interests, shares, warrants, certificates, bonds, subordinated loans and various derivative instruments.

The Company may invest unused cash in short-term (less than 12 months to maturity) and medium-term (not greater than five years to maturity) debt instruments or hold cash with reputable banks. Where it considers appropriate, the Company may enter into various derivative transactions, for example in seeking to manage its exposure to interest rate and currency fluctuations through the use of interest rate and currency hedging arrangements, or when implementing systematic or discretionary overlay strategies for the purposes of efficient portfolio management.

**Borrowings**

There are no borrowing limits in the Articles, but the directors have determined that borrowings shall not exceed 30 per cent of the value of the Company's assets at the time any borrowings are made. The Company will also be geared indirectly to the extent that the funds or other entities or investments in which the Company invests are themselves geared. Borrowings may be used at any time for short-term or temporary purposes, to facilitate share repurchases (where applicable) or to meet ongoing expenses. The Company may also borrow for investment purposes if doing so is deemed to be in the best interests of the Company. Such borrowings will be made on a short to medium term time horizon and the Company does not intend to leverage its investments on a longer term basis.

CAI Ireland is permitted to borrow up to 30 per cent of CAI Ireland's net asset value on a temporary basis including for settlement facilities or in order to meet temporary shortages of liquidity.

#### **Investment restrictions**

The Company may not invest more than 15 per cent of its net assets in any single manager and no more than 10 per cent of the Company's net assets in any single investment, at the time the investment is made. A single investment shall be determined on a look-through basis to the investment at fund level or as otherwise determined by the investment manager in good faith to be a single investment.

CAI Ireland shall not take or seek to take legal or management control of any underlying security in which it invests.

CAI Ireland may enter into OTC derivative transactions and other arrangements with counterparties and where assets are transferred to a counterparty the following rules as set out in Article 20 of the AIFMD Level 2 Regulation apply:

- (i) When selecting and appointing counterparties and prime brokers, AIFMs shall exercise due skill, care and diligence before entering into an agreement and on an ongoing basis thereafter taking into account the full range and quality of their services.
- (ii) When selecting prime brokers or counterparties of an AIFM or an AIF in an OTC derivatives transaction, in a securities lending or in a repurchase agreement, AIFMs shall ensure that those prime brokers and counterparties fulfil all of the following conditions:
  - (a) they are subject to ongoing supervision by a public authority;
  - (b) they are financially sound;
  - (c) they have the necessary organisational structure and resources for performing the services which are to be provided by them to the AIFM or the AIF.
- (iii) When appraising the financial soundness referred to in paragraph (ii)(b), the AIFM shall take into account whether or not the prime broker or counterparty is subject to prudential regulation, including sufficient capital requirements, and effective supervision.
- (iv) The list of selected prime brokers shall be approved by the AIFM's senior management. In exceptional cases prime brokers not included in the list may be appointed provided that they fulfil the requirements laid down in paragraph (ii) and subject to approval by senior management. The AIFM shall be able to demonstrate the reasons for such a choice and the due diligence that it exercised in selecting and monitoring the prime brokers which had not been listed.

# Report of the statutory auditor

## to the General Meeting of Castle Alternative Invest AG Pfäffikon SZ

### Report on the audit of the consolidated financial statements

#### Opinion

We have audited the consolidated financial statements of Castle Alternative Invest AG and its subsidiaries (the Group), which comprise the consolidated statement of comprehensive income for the year ended 31 December 2019, the consolidated balance sheet as at 31 December 2019, the consolidated statement of cash flows and consolidated statement of changes in equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

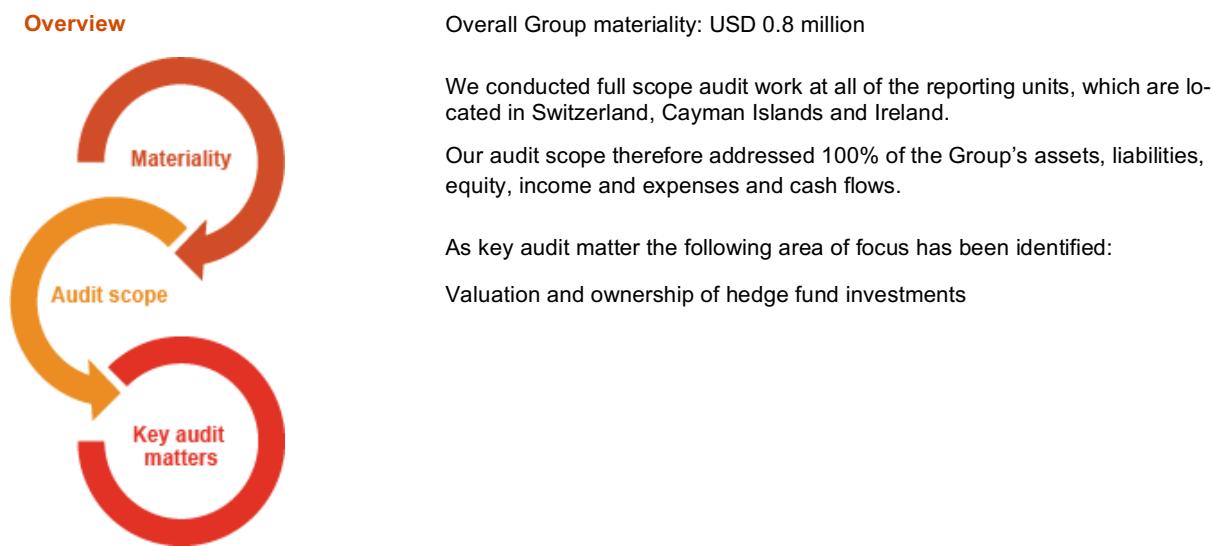

In our opinion, the consolidated financial statements (pages 20 to 60) give a true and fair view of the consolidated financial position of the Group as at 31 December 2019 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the International Financial Reporting Standards (IFRS) and comply with Article 14 of the Directive on Financial Reporting (DFR) of SIX Swiss Exchange and Swiss law.

#### Basis for opinion

We conducted our audit in accordance with Swiss law, International Standards on Auditing (ISAs) and Swiss Auditing Standards. Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements" section of our report.

We are independent of the Group in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, as well as the IESBA Code of Ethics for Professional Accountants, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Our audit approach

## Materiality

The scope of our audit was influenced by our application of materiality. Our audit opinion aims to provide reasonable assurance that the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the consolidated financial statements as a whole.

<b>Overall Group materiality</b>	USD 0.8 million
<b>How we determined it</b>	1% of total equity
<b>Rationale for the materiality benchmark applied</b>	We chose total equity as the benchmark because, in our view, it is the most relevant benchmark for investors, and is a generally accepted benchmark for investment companies.

## Audit scope

We designed our audit by determining materiality and assessing the risks of material misstatement in the consolidated financial statements. In particular, we considered where subjective judgements were made; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

## Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Valuation and ownership of hedge fund investments

Key audit matter	How our audit addressed the key audit matter
<b>Valuation of hedge fund investments</b>	
The investment portfolio comprises investments in alternative investment funds covering a wide range of hedge fund strategies. All of the Group's investments are unquoted.	The investment valuations are prepared by the investment manager applying the valuation methods disclosed in note 2h(iii). We attended the meeting of the board of directors where these investment valuations were reviewed to observe this process.
We focused on this area because of the significance of the hedge fund investments in the consolidated financial statements and determining the valuation methodology and the inputs require estimates and judgement to be applied by the investment manager and the board of directors.	We tested the design and implementation of the controls around the review and ongoing monitoring of unquoted hedge fund investments at the investment manager, to determine whether appropriate controls are in place and are operating effectively.

As set out in notes 3 (Critical accounting estimates) and 21e (Fair value estimation) investments amount to USD 68.9 million or 85.8% of total assets. Refer to note 2h(iii) (Summary of accounting policies) for the valuation methods applied.

In addition, we reviewed the results of tests of controls performed at the Irish Subsidiary's administrator, which was made available to us in their type 2 ISAE 3402 report. This enabled us to assess the design and implementation of the controls around the valuation of unquoted hedge fund investments, and to determine whether appropriate controls were in place and operating effectively throughout the reporting period.

This included controls to ensure that the valuation and ownership of unquoted hedge fund investments are supported by appropriate information provided by administrators of the target hedge funds.

We obtained information on the latest available valuation directly from the administrators or managers of the target hedge funds and corroborated the valuations applied by the investment manager to these latest valuations.

While the valuation as provided by the target hedge fund administrators is the primary source for valuation, we have selected a sample of the unquoted hedge fund investments that we identified as having a higher risk of valuation error in the fair value check process described in note 2h(iii) for testing. We challenged the assumptions applied by the investment manager, including the adequacy of the inputs used as set out in note 21e, focusing particular attention on unquoted hedge fund investments with suspended or prolonged redemption terms.

We obtained sufficient audit evidence to conclude that the inputs, estimates and methodologies used for the valuation of the unquoted hedge fund investments are within a reasonable range and that the valuation policies were consistently applied by the investment manager.

### Ownership of hedge fund investments

The hedge fund investments are safeguarded by an independent custodian.

There is a risk that the Group may not have sufficient legal entitlement to the hedge fund investments.

We consider this area to be a key audit matter because of the significant value of the hedge fund investments in the consolidated financial statements.

We confirmed investment holdings with the independent custodian. In addition, we confirmed investment holdings directly with the administrators of the underlying funds (covering 99.6% of the portfolio by fair value). For the remaining investments we agreed the investment holdings to underlying administrator reports as at 31 December 2019.

We therefore obtained sufficient audit evidence to verify the existence and legal ownership of hedge fund investments.

#### **Other information in the annual report**

The board of directors is responsible for the other information in the annual report. The other information comprises all information included in the annual report, but does not include the consolidated financial statements, the stand-alone financial statements and the remuneration report of Castle Alternative Invest AG and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information in the annual report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information in the annual report and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of the board of directors for the consolidated financial statements**

The board of directors is responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS, Article 14 of the Directive on Financial Reporting (DFR) of SIX Swiss Exchange and the provisions of Swiss law, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the board of directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law, ISAs and Swiss Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located at the website of EXPERTsuisse: <http://expertsuisse.ch/en/audit-report-for-public-companies>. This description forms part of our auditor's report.

## Report on other legal and regulatory requirements

In accordance with article 728a paragraph 1 item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists which has been designed for the preparation of consolidated financial statements according to the instructions of the Board of Directors.

We recommend that the consolidated financial statements submitted to you be approved.

## Notes to the consolidated financial statements

For the year ended 31 December 2019

(All amounts in USD thousand unless otherwise stated)

### 1 Organisation and business activity

Castle Alternative Invest AG, Pfäffikon (“the Company”), is a joint stock corporation established for an indefinite period in the Canton of Schwyz, Switzerland, by deed dated 24 July 1996. The Company was registered in the Commercial Register of the Canton of Schwyz on 30 July 1996. The Company’s business is principally conducted through two subsidiaries (“the Subsidiaries”); Castle Alternative Invest (Overseas) Ltd., Grand Cayman (“the Cayman Subsidiary”) and Castle Alternative Invest (International) plc, Dublin (“the Ireland Subsidiary”). Since 10 April 1997, the shares of the Company have been listed in Swiss Francs on the SIX Swiss Exchange.

The Castle Alternative Invest Group (“the Group”) currently consists of the Company, the Cayman Subsidiary and the Ireland Subsidiary.

Castle Alternative Invest (Overseas) Ltd., Grand Cayman, was incorporated on 31 July 1996 as an exempted company under the laws of the Cayman Islands. The authorised share capital of USD 31,870 is divided into voting non-participating redeemable ordinary shares and voting participating redeemable ordinary shares. The Group consolidates the Cayman Subsidiary in compliance with IFRS 10.

Castle Alternative Invest (International) plc, Dublin, was established as an open-ended investment company with variable capital and limited liability under the laws of Ireland on 19 February 2001. At 31 December 2019, its capital amounts to TUSD 71,758 (2018: TUSD 128,071) and it is a subsidiary of the Cayman Subsidiary. The Ireland Subsidiary became active on 19 December 2001 after receiving authorisation from the Central Bank of Ireland. The share capital is divided into management shares and participating shares. The management shares are held by LGT Capital Partners (Ireland) Ltd., Dublin, LGT Bank Ltd., Dublin Branch and LGT Fund Managers (Ireland) Ltd.

Swiss Life AG holds a side pocket share class for illiquid assets (Class RI) in the Ireland Subsidiary. The side pocket share classes will pay out proceeds as their assets are realised. As of 31 December 2019 Swiss Life AG’s holding in the remaining Class RI shares comprised 2.55 per cent (2018: 1.81 per cent) of the net asset value of the Ireland Subsidiary.

As of 31 December 2019, the Cayman Subsidiary’s holding in Class O shares and Class RO shares comprised 97.45 per cent of the net asset value of the Ireland Subsidiary (2018: 98.19 per cent). The Company controls the Ireland Subsidiary and consolidates it in compliance with IFRS 10. Swiss Life AG’s holding and LGT Castle Sub-Fund’s holding in the Ireland Subsidiary are shown as non-controlling interests in the Group’s consolidated financial statements.

The Group regards shareholders’ equity as the capital it manages. The Group’s investment objective is to maximise the long-term returns to shareholders by investing, through its Subsidiaries or through such other subsidiaries as the Company may establish from time to time, in a diversified portfolio of

non-traditional investments. Non-traditional investments mean and include investment funds and other investment structures (together the “Investment Vehicles”) which aim for absolute returns and use a broad range of investment strategies including short sales and leverage. The Group offers the essential benefits of hedge fund investing in a well-diversified and actively managed global portfolio of high quality hedge funds: absolute performance, low volatility, and low correlation to traditional assets.

The Group targets to generate absolute returns net to investors independently of major market cycles. In order to reach its investment objectives, the Group features an optimally balanced portfolio across all major hedge fund strategies: long/short, relative value, event driven and macro/CTA. The alternative investment fund manager (“AIFM”) of the Group’s Ireland Subsidiary provides active portfolio management, thorough due diligence and risk management. The strategy relies on the AIFM’s experience and access to excellent hedge fund managers worldwide. No assurance can be given that the Group’s investment objective will be achieved and investment results may vary substantially over time.

The consolidated financial statements are presented in US Dollar which is the Group’s entities’ functional currency and the Group’s presentation currency.

As of 31 December 2019 and 31 December 2018 the Group did not employ any employees.

## **2 Summary of accounting policies for the consolidated financial statements**

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### **Basis of preparation**

The accompanying consolidated financial statements of the Group for the year ended 31 December 2019 have been prepared on a going concern basis and in accordance with International Financial Reporting Standards (IFRS) formulated by the International Accounting Standards Board (IASB) and comply with Swiss Law and the accounting guidelines laid down in the SIX Swiss Exchange’s Directive on Financial Reporting (DFR) for investment companies.

The consolidated financial statements of the Group have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The board of directors considers the annual report and accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for the shareholders to assess the Group’s performance, business model and strategy.

**a) Standards and amendments to published standards that are mandatory for the financial year****beginning on or after 1 January 2019**

- IFRS 16, “Leases”, (1 January 2019);
- Amendment to IFRS 9, “Financial instruments”, prepayment features with negative compensation, (1 January 2019);
- Amendment to IAS 28, “Investment in associates”, long term interests in associates and joint ventures (1 January 2019);
- Amendment to IAS 19, “Employee benefits”, plan amendment, curtailment or settlement (1 January 2019);
- IFRIC 23, “Uncertainty over income tax treatments”, (1 January 2019); and
- Annual improvements 2015 – 2017, “IFRS 3, Business combinations”, “IFRS 11, joint ventures”, “IAS 12, Income Taxes”; “IAS 23 and Borrowing costs” (1 January 2019).

The implementation of these new standards did not have an impact on the consolidated financial statements of the Group and did not lead to any changes to the total shareholders' equity of the Group.

**b) Standards and amendments to published standards effective after 1 January 2019 that have not been early adopted**

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2020, and have not been applied in preparing these financial statements. Those standards, amendments and interpretations considered included:

- Amendments to IFRS 3, “Business Combinations”, definition of a business (1 January 2020);
- Amendments to IAS 1 and IAS 8, “Presentation of Financial Statements” and “Accounting Policies, Changes in Accounting Estimates and Errors”, definition of material (1 January 2020);
- Amendments to IFRS 7 and IFRS 9, “Financial Instruments: Disclosures” and “Financial Instruments”, pre-replacement issues in the context of the IBOR reform (1 January 2020); and
- Amendments to References to the Conceptual Framework in IFRS Standards (1 January 2020).

The board of directors has assessed these new standards and determined that their implementation will not have an impact on the consolidated financial statements and will not lead to any changes to the total shareholders' equity of the Group.

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Group.

**c) Use of estimates**

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates. See also note 2 h) (iii).

**d) Basis of consolidation**

The consolidated financial statements are based on the financial statements of the individual Group companies prepared using uniform accounting principles and drawn up in accordance with the regulations governing the rendering of accounts in terms of the Listing Regulations of the SIX Swiss Exchange and with the International Financial Reporting Standards issued by the International Accounting Standards Board.

The consolidated financial statements include all assets and liabilities of the Company and its direct and indirect subsidiaries:

- Castle Alternative Invest (Overseas) Ltd., Grand Cayman; and
- Castle Alternative Invest (International) plc, Dublin.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases.

Non-controlling interests are disclosed separately in the consolidated financial statements.

Intercompany transactions, balances, unrealised gains and losses on transactions between Group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

**e) Non-controlling interest holders**

Non-controlling interest holders in the consolidated financial statements are presented as a component of equity. The profit or loss for the period and the total comprehensive income are allocated in the consolidated statement of comprehensive income to the amounts attributable to non-controlling interest holders and to the shareholders.

**f) Foreign currency**

The functional currency of the Group's entities is US Dollar. The US Dollar as the functional currency stems from the fact that the Group is investing in assets whose base currency is predominately in US Dollar. The Group has also used the US Dollar as its presentation currency.

Transactions in foreign currencies are recorded at the exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are revalued into US Dollar at the exchange rates prevailing at the balance sheet date. Unrealised exchange gains and losses resulting from the revaluation of investments at fair value through profit or loss and denominated in foreign currency are recognised in the consolidated statement of comprehensive income. Other exchange gains and losses are also included in the consolidated statement of comprehensive income.

**g) Cash and cash equivalents**

Cash and cash equivalents comprise demand, call and term deposits with a maturity of three months or less. For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise all cash, short-term deposits and other money market instruments with an original maturity of three months or less, net of bank overdrafts on demand. Cash and cash equivalents are recorded at nominal value.

**h) Financial assets and liabilities at fair value through profit or loss**

The Group, in accordance with IFRS 9, classifies its investments based on both the Group's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Group is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Group has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. Consequently, all investments are measured at fair value through profit or loss.

(i) Recognition and derecognition

The Group recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or where the Group has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled or expires.

A regular way purchase of financial assets held for trading is recognised using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded. A regular way purchase of financial assets at fair value through profit or loss is recognised using settlement date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded. Financial liabilities are not recognised until the entity becomes party to the contractual provisions of the instrument.

(ii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the consolidated statement of comprehensive income.

Financial assets at amortised cost are measured using the effective interest rate method, less impairment losses, if any.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost.

(iii) Fair value measurement principles and estimation

Fund investments for which market quotations are not readily available are valued at their fair values as described in the process below. Fund investments are normally valued at the underlying net asset value as advised by the managers/administrators of these funds, unless the directors are aware of further information to indicate why such a valuation would not be the most appropriate indicator of fair value. Such valuations are necessarily dependent upon the reasonableness of the valuations provided by the underlying managers/administrators of such funds and whether the valuation bases used are IFRS and fair value compliant. The responsibility for determining the fair value lies exclusively with the board of directors. The board of directors, under advice from the AIFM, may perform additional procedures on fund investments, including but not limited to underlying manager/administrator due diligence and other analytical procedures. The board of directors together with the AIFM also reviews management information provided by fund investments on a quarterly basis. If the directors are aware of further information to indicate why a particular fund valuation would not be the most appropriate indicator of fair value the directors will work with the underlying manager of that investment in an attempt to obtain more meaningful fair value information.

The board of directors, together with the AIFM, will determine, in good faith, fair value by considering all appropriate and applicable factors relevant to the valuation of fund investments including, but not limited to, the following:

- reference to fund investment reporting information;
- reference to appropriate investment monitoring tools used by the AIFM; and
- reference to ongoing investment and business due diligence.

Notwithstanding the above, the variety of valuation bases that may be adopted, the quality of management information provided by fund investments and the lack of liquid markets for such fund investments means that there are inherent difficulties in determining the fair values of these investments that cannot be fully eliminated. Therefore, the amounts realised on the sale or redemption of fund investments may differ from the fair values reflected in these financial statements and the differences may be significant.

Because fund investments are typically not publicly traded, redemptions can only be made by the Subsidiaries on the redemption dates and subject to the required notice periods specified in the offering documents of each fund investment. The rights of the Subsidiaries to request redemption from fund investments may vary in frequency from monthly to annual redemptions. As a result, the carrying values of such fund investments may not be indicative of the values ultimately realised on redemption. In addition, the Subsidiaries' ability to redeem their investments may ultimately be materially affected by the actions of other investors who have also invested in these fund investments.

(iv) Realised gains

Realised gains on investments and securities are shown on a net basis in the consolidated statement of comprehensive income. Realised gains are recognised as being the difference between the cost value of an investment and the proceeds received upon the sale of the investment in the year that the investment was sold.

(v) Dividends

Dividends are recognised in the consolidated statement of comprehensive income within realised gains at the time upon the declaration of such dividends.

(vi) Interest income and finance costs

Interest income and finance costs as well as other income and expenses are recognised in the consolidated statement of comprehensive income on an accruals basis.

(vii) Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

**i) Accrued income and other receivables**

Accrued income and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less impairment allowances for such losses at each reporting date.

**j) Borrowings**

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds and the redemption value is recognised in the consolidated statement of comprehensive income over the period of the borrowing using the effective interest method. Borrowings are shown as current liabilities unless the Group has the unconditional right to defer settlement for at least 12 months after the balance sheet date. Interest expense is recognised on the basis of the effective interest method and is included in finance costs.

**k) Accrued expenses and other payables**

Accrued expenses and other payables are recognised initially at fair value and subsequently stated at amortised cost.

**l) Treasury shares**

The Company can buy and sell treasury shares in accordance with the Company's articles of association, Swiss company law and in compliance with the listing rules of the SIX Swiss Exchange. Treasury shares are treated as a deduction from shareholders' equity. The gains and losses on sales of treasury shares are credited or charged to the retained earnings account. Upon cancellation, resulting differences between the exchange rates from the time of purchase of the treasury shares to the historical rates are also recognised in retained earnings. The FIFO (first in/first out) method is used for de-recognition. The purchase price is booked gross with transaction costs and withholding tax.

**m) Share capital**

The Company's share capital is divided into 6,297,099 (2018: 7,862,421) registered shares with a par value of CHF 0.05 per share (2018: CHF 5.00 per share). The shares are fully paid in. Each share entitles the holder to participate in any distribution of income and capital.

**n) Net asset value per share and earnings per share**

The net asset value per share is calculated by dividing the total shareholders' equity before non-controlling interest included in the consolidated balance sheet by the number of participating shares outstanding less treasury shares at the year end.

Basic profit per share is calculated by dividing the net profit attributable to the shareholders by the weighted average number of shares outstanding during the period. Diluted profit per share is calculated by adjusting the weighted average number of shares outstanding to assume conversion of all potentially dilutive shares.

**o) Interest income and expenses**

Interest income and expenses as well as other income and expenses are recognised in the statement of comprehensive income on an accruals basis based on the effective interest method.

**p) Taxes**

Taxes are provided based on reported income. Capital taxes paid are recorded in other operating expenses.

**Castle Alternative Invest AG, Pfäffikon**

For Schwyz cantonal and communal tax purposes, the Company is taxed as a holding company and is as such only liable for capital taxes. All relevant income of the Company, including the dividend income and capital gains from its investments, is exempt from taxation at the cantonal and communal level.

For Swiss federal tax purposes, an income tax is levied. However, there is a participation exemption on dividend income and capital gains on qualifying participations. The result of the participation exemption relief is that dividend income and capital gains are almost fully excluded from taxation.

**Castle Alternative Invest (Overseas) Ltd., Grand Cayman**

The activity of the Cayman Subsidiary is not subject to any income, withholding or capital taxes in the Cayman Islands. However it does invest in securities and subsidiaries whose dividends may be subject to nonrefundable foreign withholding taxes.

**Castle Alternative Invest (International) plc, Dublin**

The activity of the Ireland Subsidiary is not subject to any income, withholding or capital taxes in Ireland. However, it does invest in securities and subsidiaries whose dividends may be subject to nonrefundable foreign withholding taxes.

**q) Segment reporting**

IFRS 8 requires entities to define operating segments and segment performance in the financial statements based on information used by the chief operating decision-maker. The AIFM is considered to be the chief operating decision-maker. An operating segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other operating segments.

The sole operating segment of the Group is investing in hedge funds. The AIFM works as a team for the entire portfolio, asset allocation is based on a single, integrated investment strategy and the Group's performance is evaluated on an overall basis. Thus the results published in this report correspond to the sole operating segment of investing in hedge funds.

**r) Related parties**

Related parties are individuals and companies where the individual or company has the ability, directly or indirectly, to control the other party or to exercise significant influence over the other party in making financial and operating decisions.

**3 Critical accounting estimates**

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year are the fair value of non-quoted investments. The fair value of financial instruments that are not traded in an active market is determined by reference to the published net asset values of such underlying funds, as adjusted where relevant by the board of directors as described in the accounting policies. In the case of such an adjustment, changes in assumptions could affect the reported fair value of these investments. The variety of valuation bases that may be adopted, the quality of management information provided by fund investments and the lack of liquid markets for such fund investments means that there are inherent difficulties in determining the fair values of these investments that cannot be fully eliminated. Therefore, the amounts realised on the sale or redemption of fund investments may differ from the fair values reflected in these financial statements and the differences may be material. As of 31 December 2019 and 31 December 2018, there were no fund investments for which the board of directors made valuation adjustments.

#### 4 Foreign exchange rates

The following exchange rates have been applied to translate the foreign currencies of significance for the Group:

Foreign exchange rates		Unit	2019 USD	2018 USD
Swiss Francs	Year-end rates	1 CHF	1.0348	1.0175
Euro	Year-end rates	1 EUR	1.1225	1.1434
Swiss Francs	Average annual rates	1 CHF	1.0070	1.0239
Euro	Average annual rates	1 EUR	1.1191	1.1786

#### 5 Net gain/(loss) from investments at fair value through profit or loss

The net gain/(loss) on investments at fair value through profit or loss was earned on:

	2019 TUSD	2018 TUSD
<b>Realised gains/(losses), net on investments:</b>		
Alternative Risk Premia	(29)	—
CTA	1,230	3,294
Macro	13	2,070
Event Driven	2,958	4,057
Long/Short	5,062	445
Relative Value	3,143	3,772
<b>Total realised gain on investments<sup>1)</sup></b>	<b>12,377</b>	<b>13,638</b>
<b>Unrealised gains/(losses), net on investments:</b>		
Alternative Risk Premia	(12)	—
CTA	(381)	(4,379)
Macro	(1)	(2,754)
Event Driven	(1,922)	(5,467)
Long/Short	(680)	(2,917)
Relative Value	(778)	(3,278)
<b>Total unrealised loss on investments<sup>2)</sup></b>	<b>(3,774)</b>	<b>(18,795)</b>
<b>Net gain/(loss) on investments at fair value through profit or loss</b>	<b>8,603</b>	<b>(5,157)</b>

<sup>1)</sup> In the above table the realised gains are shown as being the difference between the cost value of an investment and the proceeds received upon the sale of the investment in the year that the investment was sold.

<sup>2)</sup> In the above table the unrealised gains are net of gains realised during the year, which were previously recognised as unrealised.

The net gain/(loss) on investments at fair value through profit or loss was geographically allocated as follows:

	2019 TUSD	2018 TUSD
<b>Realised gains/(losses), net on investments:</b>		
America	3,445	1,835
Asia	417	130
Europe	4,132	2,034
Global	4,383	9,639
<b>Total realised gain on investments<sup>1)</sup></b>	<b>12,377</b>	<b>13,638</b>
<b>Unrealised gains/(losses), net on investments:</b>		
America	(1,645)	(2,064)
Asia	978	(1,522)
Europe	(2,593)	(1,789)
Global	(514)	(13,420)
<b>Total unrealised loss on investments<sup>2)</sup></b>	<b>(3,774)</b>	<b>(18,795)</b>
<b>Net gain/(loss) on investments at fair value through profit or loss</b>	<b>8,603</b>	<b>(5,157)</b>

<sup>1)</sup> In the above table the realised gains are shown as being the difference between the cost value of an investment and the proceeds received upon the sale of the investment in the year that the investment was sold.

<sup>2)</sup> In the above table the unrealised gains are net of gains realised during the year, which were previously recognised as unrealised.

## 6 Interest income

Interest income for the year was earned on:

Interest income	2019 TUSD	2018 TUSD
<b>Cash and cash equivalents:</b>		
Related party	1	1
Third party	122	42
<b>Total</b>	<b>123</b>	<b>43</b>

## 7 Management and performance fees

Management and performance fees are composed as follows:

Management and performance fees	2019 TUSD	2018 TUSD
Management fees – related party	1,722	2,383
Performance fees – related party	139	—
<b>Total</b>	<b>1,861</b>	<b>2,383</b>

## 8 Other operating expenses

Other operating expenses are composed as follows:

Other operating expenses	2019 TUSD	2018 TUSD
<b>Related party fees:</b>		
Credit facility standby fees	46	46
Administrative fees	53	53
Directors' fees and expenses	227	224
General manager's expenses	73	76
Domicile fees	10	10
<b>Third party fees:</b>		
Administrative fees	50	95
Reporting and publications	30	30
Audit fees	127	131
Custody fees	73	105
Capital taxes (Switzerland)	10	10
Insurance	10	11
Legal fees	21	19
Project expenses (share buyback)	235	304
Stock exchange listing expenses	7	8
Tax advisory fees	143	161
Other expenses	125	90
<b>Total</b>	<b>1,240</b>	<b>1,373</b>

## 9 Finance costs

Interest expense for the year was paid on:

Finance cost	2019 TUSD	2018 TUSD
Due to banks – related party	45	72
Due to banks – third party	3	—
<b>Total</b>	<b>48</b>	<b>72</b>

## 10 Taxes

Reconciliation of income tax calculated with the applicable tax rate:

Tax expense	2019 TUSD	2018 TUSD
Profit/(Loss) for the year before income tax	6,086	(8,906)
Applicable tax rate	7.8%	7.8%
Income tax	475	(695)
Effect from non-taxable income	(475)	695
<b>Total</b>	<b>—</b>	<b>—</b>

The applicable tax rate is the same as the effective tax rate. Refer to note 2 p) for more information on taxes.

## 11 Cash and cash equivalents

Cash and cash equivalents consist of:

Cash and cash equivalents	2019 TUSD	2018 TUSD
<b>Cash at banks:</b>		
Related party	143	213
Third party	11,272	4,404
<b>Total</b>	<b>11,415</b>	<b>4,617</b>

The Group has no cash holdings which are not at its disposal. The carrying amounts of the cash and cash equivalents approximate fair value.

## 12 Accrued income and other receivables

Accrued income and other receivables are composed of:

Accrued income and other receivables	2019 TUSD	2018 TUSD
Receivable for investments sold	—	563
Other receivables	27	—
<b>Total</b>	<b>27</b>	<b>563</b>

## 13 Investments at fair value through profit or loss

The investments are allocated according to style as follows:

Investments at fair value through profit or loss	2019 TUSD	in %	2018 TUSD	in %
Alternative Risk Premia	2,959	4%	—	0%
CTA	7,099	10%	12,251	9%
Macro	75	0%	76	0%
Event Driven	11,554	17%	37,011	28%
Long/Short	30,162	44%	61,329	45%
Relative Value	17,068	25%	23,563	18%
<b>Total</b>	<b>68,917</b>	<b>100%</b>	<b>134,230</b>	<b>100%</b>

The details of the investments are shown in the following investment table.

## Investments at fair value through profit or loss<sup>1)</sup>

## 16 Shareholders' equity

### Shareholders' equity

The share capital of the Group at 31 December 2019 amounts to TUSD 323 (31 December 2018: TUSD 27,926) consisting of 6,297,099 (2018: 7,862,421) issued and fully paid registered shares with a par value of CHF 0.05 (31 December 2018: CHF 5.00).

During the general meeting on 15 May 2019 it was decided to carry out a nominal capital reduction from CHF 5.00 to CHF 0.05 per share from TCHF 31,485 to TCHF 315. The Company purchased 591,312 treasury shares between 13 May 2019 and 13 November 2019 at a nominal value of CHF 5 per share. The nominal capital reduction of CHF 4.95 per share, effective on 14 November 2019, was paid out on 18 November 2019.

Each share entitles the holder to participate in any distribution of income and capital. The Group regards shareholders' equity as the capital that it manages. Shareholders' equity, including non-controlling interest holders, amounts to TUSD 79,747 as of 31 December 2019 (2018: TUSD 131,700).

During the period from 21 June 2010 to 31 December 2019 the Company purchased treasury shares on its second trading line. According to the program periods the 2<sup>nd</sup> line treasury shares were cancelled in subsequent yearly tranches.

The Company's share buyback program is further detailed in note 7 in the statutory report.

## 17 Major shareholders

As of 31 December the following major shareholders were known by the Company:

Major shareholders	2019	2018
Between 20% and 33 1/3%	LGT Capital Partners (FL) AG, Vaduz, Liechtenstein LGT Capital Partners, Switzerland, on behalf of pension funds Alpine Select AG, Zug, Switzerland	LGT Group Foundation, Liechtenstein
Between 10% and 20%	—	LGT Capital Partners, Switzerland, on behalf of pension funds
Between 3% and 10%	—	Alpine Select AG, Zug, Switzerland BKS Global PCC Limited, Guernsey

## 18 Significant fee agreements

In relation to its investment and administration activity the Company and/or its Subsidiaries entered into the following agreements:

- a) LGT Capital Partners (Ireland) Ltd., Dublin ("LGT CPI"), acts as the AIFM for the Ireland Subsidiary and as the investment manager for the Cayman Subsidiary (together the "Subsidiaries"). In its respective roles for the two Subsidiaries, LGT CPI receives a fee of 1.5 per cent (before deduction of the performance fee) per annum of the total US Dollar net asset value of the respective subsidiary as at the close of business on the final business day of each calendar month. The fee is due monthly in arrears, calculated as 0.125 per cent after the net asset value calculation. LGT CPI also receives a performance fee of 10 per cent of the net new trading gains of the Subsidiaries since the previous payment of such performance fee. This performance fee is payable annually and any previous losses must be recouped before such a performance fee becomes payable ("high water mark"). Performance fees are payable in arrears. Performance fees of shares redeemed during a performance period shall be paid out within 30 days after the date of redemption. The calculated net asset value is net of all accrued fees. LGT CPI will also be reimbursed for all reasonable out-of-pocket expenses, incurred for the benefit of the Subsidiaries. Both of these arrangements can be terminated by either party with 90 days' prior written notice.

The investment management and performance fees of the Cayman Subsidiary are calculated excluding the investment that the Cayman Subsidiary has in the Ireland Subsidiary, for which the fees have already been charged at the level of the Ireland Subsidiary. This ensures that there is no double charging of fees for the same assets at the level of both Subsidiaries.

LGT Capital Partners Ltd., Pfäffikon, provides investment advice based on an investment advisory agreement with LGT CPI. The investment advisor is remunerated by the LGT CPI with no extra cost to the Subsidiaries.

- b) LGT Fund Managers (Ireland) Ltd. is appointed as manager of the Ireland Subsidiary and therefore entitled to TEUR 5 for company secretarial services and to TEUR 1.5 for the preparation of the financial statements.
- c) BNP Paribas Fund Administration Services (Ireland) acts as the administrator of the Ireland Subsidiary and receives an annual fee equal to 0.05 per cent of the net asset value of the Ireland Subsidiary, payable monthly in arrears. The administrator is also entitled to an annual fee of TEUR 4 for each additional share class. Any disbursement incurred will be charged separately.
- d) LGT Group Holding Ltd., Vaduz, acts as the administrator for the Company and charges an annual flat fee of TUSD 40 payable quarterly in arrears. Any disbursements incurred will be charged separately. LGT Group Holding Ltd., Vaduz, also provides administrative services for the Cayman Subsidiary and charges an annual flat fee of TUSD 10.
- e) LGT Capital Partners Ltd., Pfäffikon, provides domicile services for the Company and receives a flat fee of TCHF 9 per annum.
- f) BNP Paribas Securities Services, Dublin Branch acts as custodian of the Ireland Subsidiary and receives a custody fee equal to a maximum of 0.02 per cent per annum of the net asset value of the Ireland Subsidiary, subject to a maximum annual fee of TUSD 70. BNP Paribas Securities Services, Dublin Branch receives in addition a depositary fee of 0.03 per cent per annum of the net asset value of the Ireland Subsidiary. The depositary is also entitled to an annual fee of TUSD 7.5 for cash flow monitoring services in addition to custody and depositary fees.
- g) Until November 2019 Citco Bank Nederland N.V., Amsterdam, and Citco Global Custody N.V., Malta, provided custodial services to the Cayman Subsidiary and received a fee equivalent to 0.035 per cent annually of the average holdings over the preceding three months, plus actual sub-custodian charges (if applicable) and out-of-pocket expenses. Citco Bank charged a transaction fee of 0.25 per cent, with a minimum of USD 100 and a maximum of USD 800 for each transaction. By 18 November 2019 the agreement has been terminated, and no new custodial agreements have been signed.

## 19 Significant transactions with related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operating decisions. In the opinion of the board of directors, the parties referred to in the schedule accompanying this note are related parties as defined by IAS 24 "Related Party Disclosures". All related party transactions have been carried out within the normal course of business, and are disclosed in the table below.

LGT Group Foundation, Vaduz, is the controlling shareholder of LGT Capital Partners (Ireland) Ltd., Dublin, which is entitled to a management fee from the Subsidiaries (1.5 per cent of net assets in US Dollar before deduction of the accrual of the performance fee) and a performance fee.

<b>Total</b>	<b>255</b>	<b>262</b>

The board of directors has delegated the operational management of the Company to Benedikt Meyer as general manager. His remuneration is further detailed in the remuneration report on pages 80 to 83 of this report.

LGT Group Foundation is the ultimate owner of LGT Capital Partners (Ireland) Ltd. which acts as AIFM/investment manager to the Group and receives a management fee for these services.

## 20 Segment reporting

The sole operating segment of the Group reflects the internal management structure and is evaluated on an overall basis. Revenue is derived by investing in a portfolio of hedge fund investments with a view to achieving significant value growth and to help shareholders maximise long-term returns. The following results correspond to the sole operating segment of investing in hedge funds.

The non-current assets are geographically allocated as follows:

	2019 TUSD	in %	2018 TUSD	in %
<b>Non-current assets:</b>				
America	12,392	18%	29,530	22%
Asia	14,403	21%	27,309	20%
Europe	13,903	20%	38,422	29%
Global	28,219	41%	38,969	29%
<b>Total non-current assets</b>	<b>68,917</b>	<b>100%</b>	<b>134,230</b>	<b>100%</b>

For the geographic allocation of the net gain/(loss) on investments at fair value through profit or loss see note 5.

For more information on the largest shareholders see note 17.

## 21 Financial risk management

The Group is exposed to a variety of financial risks including: market risk, credit risk and liquidity risk. The AIFM attributes great importance to professional risk management, beginning with careful diversifications, the sourcing of access to premier hedge fund investment opportunities, proper understanding and negotiation of appropriate terms and conditions, and active monitoring including ongoing interviews with managers, thorough analysis of reports and financial statements and performance reviews. The Group has investment guidelines that set out its overall business strategies, its investment policy, general investment and risk guidelines, and has established processes for the monitoring of these guidelines. The Ireland Subsidiary's AIFM provides the Irish Subsidiary with investment opportunities that are consistent with the Group's objectives.

### a) Market risks

- (i) Price risk – The investments held in the portfolio may be realised only after several years and their fair values may change significantly. The AIFM provides the Group with investment opportunities that are consistent with the Group's objectives.

The rights of the Group to request redemption from fund investments may vary in frequency from monthly to annual redemptions. The nature of the Group's fund investments, all being unquoted, means the Group relies on underlying administrator estimates and final net asset values, underlying manager estimates and audited final net asset values at year-ends for determining the fair value of fund investments, adjusted where relevant by the board of directors as described in the accounting policies.

The board of directors reviews and agrees policies with the AIFM for managing its risk exposure. The AIFM makes investment decisions in compliance with the Investment Management agreement and which are consistent with the Group's objectives.

The AIFM makes its decisions, including manager selections, based on a thorough understanding of the risk and performance characteristics of fund investments gained through detailed investigation and critical analysis. The AIFM selects underlying managers which it considers have robust risk controls and mechanisms. The monitoring of such fund investments is a continuous process. The investment portfolio is quarterly reviewed by the board of directors.

While the Group holds a diversified portfolio of underlying fund investments, there are certain general market conditions under which any investment strategies that the Group follows are unlikely to be profitable. Neither the underlying managers of the fund investments nor the AIFM have any ability to control or predict such market conditions. Although, with respect to market risk, the Group's investment approach is designed to achieve broad diversification on a global basis, from time to time, multiple market events could move together against the Group's underlying investments and the Group could suffer losses.

Underlying managers of fund investments may transfer a portion of the Group's investment in that fund into share classes where liquidity terms are directed by the underlying manager in accordance with the respective fund investment's offering memorandum, commonly referred to as side pocket share classes. These side pocket share classes may have restricted liquidity and prohibit the Group from fully liquidating its investments without delay. The Group's AIFM attempts to determine the fund investment's strategy on side pockets prior to making an allocation to such investment through its due diligence process. However, no assurance can be given on whether or not the fund investments will implement side pockets during the investment period. Fund investments may also, at their discretion, suspend redemptions or implement other restrictions on liquidity which could impact the Group. As of 31 December 2019, TUSD 1,315 or 1.6 per cent of net assets were considered illiquid by the Group due to restrictions implemented by certain fund investments (2018: TUSD 2,826 or 2.1 per cent).

The investment remit is to have an optimally allocated portfolio over (i) the various investment styles (e.g. CTA/macro, event driven, long/short equity, relative value, etc.) and (ii) geographical regions (e.g. Asia, Emerging Markets, Europe, USA etc.). The investment vehicles and their respective fund managers are selected on quantitative and qualitative research criteria including (i) risk return prospects of different non-traditional investment strategies, (ii) business structure and team organisation of the fund manager, (iii) risk management procedure and liquidity aspects of the investment vehicles, (iv) amount under management and commitment of the principals of the fund manager, (v) cost structure, (vi) correlation to other fund managers and the entire portfolio and (vii) historical performance in relation to investment style, expected returns, benchmarks and degree of risk. The Group allocates the majority of its assets at cost to funds with a proven performance record of several years. The objective is to invest into top quality fund managers across the respective investment sectors. A minority part of the assets are invested with new and emerging fund managers. The Group does not allocate more than 15 per cent of the net asset value at cost to one single fund manager or 10 per cent to any one investment vehicle. Under normal circumstances, no allocation to a fund manager will be made prior to a visit by the AIFM to the fund manager's business location. It includes a proper evaluation concerning the fund manager's business structure, its key employees, its track record, its relation with third parties and other relevant aspects. The AIFM carries out a monitoring procedure in order to implement the following risk control parameters: (i) changes in a fund manager's structure and organisation, (ii) major deviations from historical returns, (iii) changes in the correlation of the portfolio, (iv) changes in investment styles, and (v) comparisons of fund manager's performance versus that of their underlying investments.

As of 31 December 2019 and 31 December 2018, the Group's market risk was affected mainly by changes in actual market prices.

### **Value at Risk**

The Group applies value at risk methodology (VaR) to its portfolio as well as to the individual investments in order to estimate the risk of positions held at certain times. The risk analysis refers to a specified time horizon and to a given level of confidence and in this respect derives the potential losses that could occur on these positions as a result of market movements affecting the exposures held by hedge funds and based upon a number of assumptions for hedge fund behaviour and market behaviour. VaR is a statistically based estimate of the potential loss on the program (referring to portfolio composition at a particular point of time) from adverse market movements. It expresses the maximum amount the program might lose, but only to a certain level of confidence (99 per cent). There is therefore a specified statistical probability (1 per cent) that actual losses could be greater than the VaR estimate.

### **Methods and Assumptions**

The risk analysis shows risk with respect to actual year-end allocations in the portfolio. For this analysis the VaR is calculated by deriving the 99<sup>th</sup> worst percentile of constructed weekly portfolio returns using the last 170 weeks and based on “treated” historical series of hedge funds. The “treatment” is applied because of the different and possible irregular frequencies. The time series is interpolated to produce weekly returns across the portfolio.

Actual outcomes are monitored regularly to test the validity of this VaR calculation. The employment of different methodologies, also with greater forward looking characteristics, generates information about the robustness of the risk figures.

### **Limitations to this Value at Risk Model**

The weaknesses of this approach are reliance on historical observations and the different data availability across funds. Most of the funds provide weekly returns but the data frequencies can differ considerably between styles. Nevertheless, the figures presented should provide an adequate view of histories and reflect turbulent times well.

The methodology employed for this risk illustration is only one type of risk information considered and the complexity of risks analysis for fund of fund portfolios requires the use of various different methodologies.

Value at Risk Summary	2019	2018
As of 31 December	0.91%	0.94%

The performance of the investments and the compilation of the investment portfolio held by the Group is monitored by the AIFM on a monthly basis and reviewed regularly by the board of directors.

(ii) Currency risk – The majority of the Group's assets are denominated in the US Dollar, the functional currency. As a result, the Group is not exposed to a significant amount of currency risk. The Group's policy is not to enter into any currency hedging transactions. The schedule below summarises the Group exposure to currency risks.

In accordance with the Group's policy, the AIFM monitors the Group's currency position on a monthly basis and the board of directors reviews it on a regular basis.

### Currency risk

<b>As of 31 December 2019</b>	<b>USD TUSD</b>	<b>CHF TUSD</b>	<b>Total TUSD</b>
<b>Assets</b>			
Cash and cash equivalents	7,357	4,058	11,415

Accrued expenses and other payables	499	211	710
<b>Total liabilities</b>	<b>7,499</b>	<b>211</b>	<b>7,710</b>

(iii) Interest rate risk – The majority of the Group's financial assets and liabilities are non-interest bearing. As a result, the Group is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at short-term market interest rates.

The schedule below summarises the Group's exposure to interest rate risks. It includes the Group's assets and liabilities at fair values, categorised by the earlier of contractual repricing or maturity dates.

In accordance with the Group's policy, the AIFM monitors the Group's overall interest sensitivity on a monthly basis, and the board of directors reviews it on a regular basis.

<b>Total current liabilities</b>	<b>7,000</b>	<b>710</b>	<b>7,710</b>

**b) Credit risk**

The Group takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the balance sheet date, if any. The schedule below summarises the Group's exposure to credit risks.

The Group's main credit risk concentration is from redemptions to be received from the hedge funds investments in which the Group is invested. The Group seeks to mitigate its exposure to credit risk by conducting its contractual transactions and placing its short-term funds only with institutions which are reputable and well established.

In accordance with the Group's policy, the AIFM monitors the Group's credit position on a monthly basis and the board of directors reviews it on a regular basis.

The Group measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. At 31 December 2019 and 31 December 2018, all cash is held with banks disclosed in the table below and are due to be settled within 1 week. The management considers the probability of default to be close to zero as counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Group.

**Credit risk**

<b>As of 31 December 2019</b>	<b>Fully performing TUSD</b>	<b>Total TUSD</b>	<b>S&amp;P Rating</b>
<b>Assets</b>

Accrued income and other receivables	563	563	n/a
<b>Total exposure to credit risk</b>	<b>5,180</b>	<b>5,180</b>	

**c) Liquidity risk**

The schedule below analyses the Group's financial liabilities based on the remaining period at the balance sheet date to the contractual maturity date. The amounts in the schedule are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

The AIFM carries out a detailed liquidity plan in which all subscriptions and redemptions in the underlying hedge fund investments are taken into account. The goal is to keep a liquidity reserve in cash and cash equivalents to take advantage of investment opportunities which may arise and to cover any future fee payments.

As mentioned in note 14 the Subsidiaries have a credit line of total TUSD 15,000 (2018: TUSD 15,000) granted by LGT Bank Ltd., Dublin Branch, which may be used for bridge financing purposes and helps to mitigate liquidity risk.

**Liquidity risk**

As of 31 December 2019	Less than 1 month TUSD	1 – 3 months TUSD	No stated maturity TUSD	Total TUSD
<b>Liabilities</b>				
Accrued expenses and other payables	254	359	—	613

<b>Total current liabilities</b>	<b>7,378</b>	<b>332</b>	—	<b>7,710</b>
<b>Total outstanding commitment amount (note 22)</b>	<b>4,109</b>	—	—	<b>4,109</b>

Most of the investments which the Group makes are also subject to specific restrictions on transferability and disposal. Consequently, risks exist that the Group might not be able to readily dispose of its holdings in such markets or investments when it chooses and also that the price attained on a disposal is below the amount at which such investments are included in the Group's consolidated balance sheet. To help mitigate this risk the Group seeks to invest in investments with redemption periods of no longer than three months. The table below analyses the redemption periods for the investments.

#### Liquidity risk – redemption periods

As of 31 December 2019	Less than 1 month TUSD	1 – 3 months TUSD	3 – 6 months TUSD	More than 6 months TUSD	Un- determined TUSD	Total TUSD

Raptor Private Holdings Ltd.	Liquidation	133
The Rohatyn Group Global Opportunity Fund Ltd.	Sidepocket	76
<b>Total</b>		<b>2,826</b>

As disclosed in note 1 side pocket share classes were created for illiquid assets. In addition to the evented funds, Crown Distressed Credit Opportunities plc is considered illiquid due to its nature or, as set out in its issuing documents, exhibits longer notice periods and will therefore take longer to redeem. Crown Distressed Credit Opportunities plc was due to expire on 1 July 2016 but was extended to 29 June 2021 and has a fair value of TUSD 556 (2018: TUSD 1,163).

In accordance with the Group's policy, the AIFM monitors the Group's liquidity position on a monthly basis and the board of directors reviews it on a regular basis.

**d) Capital risk management**

Discount control – The directors recognise the importance to shareholders of the Company's share price performance in the secondary market. Accordingly, the directors may take steps from time to time with a view to seeking to limit the prevailing discount to net asset value at which the shares trade. In particular, the directors may authorise repurchases of shares for cancellation.

Repurchase of shares for cancellation – The directors may consider repurchasing shares in the market for treasury or for cancellation if they believe it to be in shareholders' interests and as a means of correcting any imbalance between supply and demand for the shares. Pursuant to the Swiss Code of Obligations, the Company is not required to obtain a general authority from shareholders to effect the repurchase of shares for cancellation. Any purchase of shares by the Company for cancellation will only be made through the market at prices (after allowing for costs) below the prevailing net asset value per share and will otherwise be in accordance with the Listing Rules in force at the time and with guidelines established from time to time by the board. Swiss law limits the right of a company to purchase and hold its own shares.

**e) Fair value estimation**

Fund investments for which market quotations are not readily available are valued at their fair values as described below. Fund investments are normally valued at their net asset value as advised by the underlying managers/administrators of such funds. Such valuations are necessarily dependent upon the reasonableness of the valuations provided by the underlying managers/administrators of such funds and whether the valuation bases used are IFRS and fair value compliant. The responsibility for determining the fair value lies exclusively with the board of directors. The board of directors under advice from the AIFM may perform additional procedures on fund investments, including but not limited to underlying manager/administrator due diligence and other analytical procedures. If the directors are aware of further information to indicate why a particular fund valuation would not be the most appropriate indicator of fair value the directors will work with the underlying manager of that investment in an attempt to obtain more meaningful fair value information. See note 2h (iii) for further valuation information.

IFRS 13 requires the Group to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the fair value measurements. The hierarchy has the following levels:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgement by the board of directors and the AIFM. The board of directors and the AIFM consider observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Group’s financial assets (by class) measured at fair value at 31 December 2019 and 31 December 2018.

<b>As of 31 December 2019</b>	<b>Level 1 TUSD</b>	<b>Level 2 TUSD</b>	<b>Level 3 TUSD</b>	<b>Total TUSD</b>
<b>Assets</b>				
<b>Assets at fair value through profit or loss:</b>				
Investments	—	67,047	1,870	68,917
<b>Total</b>	<b>—</b>	<b>67,047</b>	<b>1,870</b>	<b>68,917</b>

<b>As of 31 December 2018</b>	<b>Level 1 TUSD</b>	<b>Level 2 TUSD</b>	<b>Level 3 TUSD</b>	<b>Total TUSD</b>
<b>Assets</b>				
<b>Assets at fair value through profit or loss:</b>				
Investments	—	130,241	3,989	134,230
<b>Total</b>	<b>—</b>	<b>130,241</b>	<b>3,989</b>	<b>134,230</b>

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Group does not hold level 1 investments as of 31 December 2019 and 31 December 2018.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations, or alternative pricing sources such as the binding and executable underlying net asset values provided by the managers/administrators of these instruments, supported by observable inputs are classified within level 2. These include listed equities, over-the-counter derivatives and fund investments for which market quotations are not readily available. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. For more information on the valuation of these investments see note 2 h) (iii).

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include hedge fund investments that, due to various events and/or the illiquid nature of the underlying assets, are not readily realisable. See also note 21 c) liquidity risk.

If the value of the level 3 investments (based on year end values) had increased or decreased by 5 per cent with all other variables held constant, the impact on the consolidated statement of comprehensive income and consolidated balance sheet would have been TUSD 94 (2018: TUSD 199). For further sensitivity analysis on the investments please refer to note 21 a) (i).

The following table shows the allocation of the level 3 investments according to geography, in percentage of the total fair value of these investments.

Diversification by geography	2019		2018
	% of financial assets at fair value through profit or loss		% of financial assets at fair value through profit or loss
America		34%	29%
Asia		8%	10%
Global		58%	61%
<b>Total</b>		<b>100%</b>	<b>100%</b>

As of 31 December 2019 and 31 December 2018, the Group had an investment in Highland Crusader Fund II Limited ("Highland") for which the valuation is complex as the fund holds a large number of illiquid investments. The Group redeemed its entire position as of 30 June 2008, however, due to the illiquidity of the portfolio and increasing redemption requests, the investment manager of Highland decided to suspend redemption payments. After further losses, the investment manager proposed that the fund be wound up in its entirety making the value of all outstanding balances including prior redemption requests dependent on the realised value of assets as the fund is liquidated. Investors accepted this distribution scheme in 2011 and the investment was therefore classified as a level 3 investment in the 2011 annual report. Since the acceptance of the distribution plan, up to 31 December 2019, the Group had received redemption proceeds amounting to TUSD 12,381.

As of 31 December 2019 and 31 December 2018, the Group had an investment in D.E. Shaw Composite International Ltd. In the case of D.E. Shaw Composite International Ltd. redemptions from this fund during 2011 resulted in a proportion of the redemption proceeds being distributed in the form of side pockets which are illiquid.

As of 31 December 2019 and 31 December 2018, the Group had an investment in Crown Distressed Credit Opportunities plc. Crown Distressed Credit Opportunities plc was reclassified from level 2 to level 3 in the 2011 annual report due to the fact that its liquidity terms imply that it can only be liquidated over a prolonged timeframe due to its private equity like nature. This investment was made at a time when all the assets of the Group belonged to the closed ended listed Company and thus such liquidity terms were deemed compatible with the Group's liquidity requirements. In 2019 and 2018 no investments were reclassed between level 2 and level 3.

The following table presents a reconciliation disclosing the changes during the year for financial assets and liabilities classified as being level 3.

<b>As of 31 December 2019</b>	<b>Investments at fair value through profit or loss TUSD</b>
<b>Assets</b>	
At 1 January	3,989
Net change in unrealised loss	(1,557)
Sales	(562)
<b>At 31 December</b>	<b>1,870</b>
<b>Total realised gain for the year included in the statement of comprehensive income for investments held at the end of the year</b>	<b>1,110</b>
<b>As of 31 December 2018</b>	<b>Investments at fair value through profit or loss TUSD</b>
<b>Assets</b>	
At 1 January	4,848
Net change in unrealised loss	(723)
Sales	(136)
<b>At 31 December</b>	<b>3,989</b>
<b>Total realised gain for the year included in the statement of comprehensive income for investments held at the end of the year</b>	<b>382</b>

The carrying values of all other assets and liabilities are a reasonable approximation of fair value.

## **22 Commitments, contingencies and other off-balance-sheet transactions**

The Group has made the following commitments to investment funds as of 31 December:

<b>As of 31 December 2019</b>	<b>Commitment in TUSD</b>	<b>Open commitment amount in TUSD</b>
Crown Distressed Credit Opportunities plc	16,500	4,109
<b>Total</b>	<b>16,500</b>	<b>4,109</b>

<b>As of 31 December 2018</b>	<b>Commitment in TUSD</b>	<b>Open commitment amount in TUSD</b>
Crown Distressed Credit Opportunities plc	16,500	4,109
<b>Total</b>	<b>16,500</b>	<b>4,109</b>

The nature of these commitments is that they can be called at the respective investment managers' discretion. The board of directors confirms that there are no other commitments, contingencies or other transactions that could have a material effect upon the financial situation of the Group as of 31 December 2019.

## **23 Subsequent events**

The consolidated financial statements are authorised for issue on 27 March 2020 by the board of directors. The annual general meeting called for 13 May 2020 will vote on the final acceptance of the consolidated financial statements.

Since the balance sheet date of 31 December 2019 Castle Alternative Invest AG purchased 52,410 treasury shares on its ordinary and second trading line to the amount of TUSD 747. As of 26 March 2020 the Company held in total 1,253,440 treasury shares on its second trading line.

It is intended that approval for the cancellation of all registered shares repurchased will be sought at the annual general meeting in 2020.

Since the balance sheet date of 31 December 2019, there have been no material events that could impair the integrity of the information presented in the consolidated financial statements.

The first quarter of 2020 has seen a sharp increase in the volatility of all financial markets due to the COVID-19 pandemic. The Directors of the Company are actively monitoring the situation and, with the support of the AIFM, continue to manage the Company's assets within investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate the Company through this period of heightened uncertainty.

# Report of the statutory auditor

to the General Meeting of Castle Alternative Invest AG

Pfäffikon SZ

## Report on the audit of the financial statements

### Opinion

We have audited the financial statements of Castle Alternative Invest AG, which comprise the balance sheet as at 31 December 2019, statement of income and accumulated surplus/(deficit) and notes for the year then ended, including a summary of significant accounting policies.

In our opinion, the financial statements as at 31 December 2019 (pages 66 to 77) comply with Swiss law and the company's articles of incorporation.

### Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the entity in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Our audit approach

#### Materiality

The scope of our audit was influenced by our application of materiality. Our audit opinion aims to provide reasonable assurance that the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall materiality for the financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate, on the financial statements as a whole.

<b>Overall materiality</b>	USD 0.8 million
<b>How we determined it</b>	1% of total shareholders' equity
<b>Rationale for the materiality benchmark applied</b>	We chose total shareholders' equity as the benchmark because, in our view, it is the most relevant benchmark for investors and it is generally accepted benchmark for investment companies.

PricewaterhouseCoopers AG, Birchstrasse 160, Postfach, CH-8050 Zürich, Switzerland  
Telefon: +41 58 792 44 00, Telefax: +41 58 792 44 10, [www.pwc.ch](http://www.pwc.ch)

PricewaterhouseCoopers AG is a member of the global PricewaterhouseCoopers network of firms, each of which is a separate and independent legal entity.

#### Audit scope

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we considered where subjective judgements were made; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in

all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

#### Report on key audit matters based on the circular 1/2015 of the Federal Audit Oversight Authority

We have determined that there are no key audit matters to communicate in our report.

#### Responsibilities of the board of directors for the financial statements

The board of directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the company's articles of incorporation, and for such internal control as the board of directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the board of directors is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and Swiss Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the website of EXPERT-suisse: <http://expertsuisse.ch/en/audit-report-for-public-companies>. This description forms part of our auditor's report.

## Report on other legal and regulatory requirements

In accordance with article 728a paragraph 1 item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists which has been designed for the preparation of financial statements according to the instructions of the board of directors.

We further confirm that the proposed appropriation of available earnings complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

We recommend that the financial statements submitted to you be approved.

<sup>2)</sup> In accordance with SCO Art. 958 the board resolved to present the Company's financial statements in US Dollars, see note 2 b).

## Notes to the company financial statements

For the year ended 31 December 2019

(All amounts in thousands unless otherwise stated)

### 1 Organisation and business activity

Castle Alternative Invest AG, Pfäffikon ("the Company") was incorporated on 30 July 1996 as a joint stock corporation under Swiss laws. The Company's registered office is Schützenstrasse 6, CH-8808 Pfäffikon.

Since 10 April 1997, the shares of the Company have been listed in Swiss Francs on the SIX Swiss Exchange and on 21 January 2002, a listing in US Dollar on the SIX Swiss Exchange followed, which was discontinued effective 15 September 2017.

The main activity of the Company is investing in a diversified portfolio of non-traditional investments, through its two Subsidiaries, Castle Alternative Invest (Overseas) Ltd., Grand Cayman ("the Cayman Subsidiary") and Castle Alternative Invest (International) plc, Dublin ("the Ireland Subsidiary").

As of 31 December 2019 and 31 December 2018 the Company did not employ any employees.

### 2 Accounting principles

These Company financial statements have been prepared in accordance with the provisions on accounting and financial reporting of the Swiss Code of Obligations (Art. 957 to 963b CO).

#### a) Participations

The participation in the Cayman Subsidiary is stated at acquisition cost or at the lower net realisable value, using the net asset value of the Cayman Subsidiary.

#### b) Functional and presentation currency

The books of the Company are kept in US Dollar (functional currency). Up until 31 December 2017 the Company's financial statements were presented in Swiss Francs (presentation currency). Effective as of 1 January 2018 the board of directors of the Company resolved to use the US Dollar as its presentation currency for statutory reporting. This change of the presentation currency improves the transparency of the statutory reporting and the comparability to the consolidated financial statements of the Group which are also presented in US Dollars.

From 2018, in accordance with the Swiss Code of Obligations, the Company also presents the Swiss Franc amounts next to the US Dollar presentation currency (identified as Swiss Francs supplementary information). The conversion from the US Dollar to the Swiss Franc supplementary information is conducted as follows:

- all assets and liabilities by applying the year-end exchange rate;
- income and expenses at the average exchange rate for the year; and
- the shareholders' equity at the historical exchange rate.

The currency translation difference from the conversion of the US Dollar values into the Swiss Franc values are cumulatively presented in the shareholders' equity as accumulated translation difference.

The 2019 and 2018 Swiss Franc amounts presented are for supplementary information only (SCO 958d Para.3).

### 3 Participations

The Company's only direct investment is 100 per cent of the voting participating redeemable ordinary shares of the Cayman Subsidiary. The Cayman Subsidiary is invested in the Ireland Subsidiary, an open ended investment company with variable capital under the laws of Ireland. Further information can be found in note 1 of the consolidated financial statements.

Where a dividend distribution has been approved by a subsidiary, the participation income from the subsidiary is recognised based on an economic standpoint, i.e. at the same time as the corresponding liability is recorded in the subsidiary.

Balance sheet reconciliation of participation carrying value	2019 TUSD	2019 TCHF	2018 TUSD	2018 TCHF
<b>1 January</b>	<b>125,894</b>	<b>123,729</b>	<b>162,216</b>	<b>157,932</b>
Valuation adjustment on participation	(55,890)	(55,499)	(36,322)	(35,435)
Foreign exchange translation differences on participation through shareholders' equity	—	(577)	—	1,232
<b>31 December</b>	<b>70,004</b>	<b>67,653</b>	<b>125,894</b>	<b>123,729</b>

### 4 Foreign exchange rates

The following exchange rates have been applied to translate the foreign currencies of significance for the Company:

Foreign exchange rates	Unit	2019 USD	2018 USD
Swiss Francs      Year-end rates	1 CHF	1.0348	1.0175
Swiss Francs      Average annual rates	1 CHF	1.0070	1.0239

## 5 Taxes

The Company is taxed as a holding company and is as such liable for cantonal/communal capital taxes (reduced rates) and Swiss federal income taxes. The actual tax expenses cover all taxes through 31 December 2019.

## 6 Pledged assets

As of 31 December 2019, the Subsidiaries have a credit line of TUSD 15,000 (31 December 2018: TUSD 15,000). The credit line is granted by LGT Bank Ltd., Dublin Branch and is secured by the participating shares of the Ireland Subsidiary as well as the voting participating redeemable ordinary shares of the Cayman Subsidiary, which are directly held by the Company. The pledged assets are deposited with LGT Bank Limited, Vaduz and pledged in favour of the lender. As of 31 December 2019, the Ireland Subsidiary had no loans borrowed from LGT Bank Ltd., Dublin Branch (2018: TUSD 7,000).

## 7 Shareholders' equity

### Shareholders' equity

The share capital of the Company at 31 December 2019 amounts to TUSD 323 (TCHF 315) (31 December 2018: TUSD 40,378, TCHF 39,312) consisting of 6,297,099 (2018: 7,862,421) issued and fully paid registered shares with a par value of CHF 0.05 (31 December 2018: CHF 5.00). During the general meeting on 15 May 2019 it was decided to carry out a nominal capital reduction from CHF 5.00 to CHF 0.05 per share from TCHF 31,485 to TCHF 315. The Company purchased 591,312 treasury shares between 13 May 2019 and 13 November 2019 at a nominal value of CHF 5 per share. The nominal capital reduction of CHF 4.95 per share, effective on 14 November 2019, was paid out on 18 November 2019.

Each share entitles the holder to participate in any distribution of income and capital. The Company regards shareholders' equity as the capital that it manages. Shareholders' equity amounts to TUSD 77,914 (TCHF 75,297) as of 31 December 2019 (31 December 2018: TUSD 129,382, TCHF 127,157).

### Treasury shares

The Company can buy and sell treasury shares in accordance with the Company's articles of association, Swiss company law and in compliance with the listing rules of the SIX Swiss Exchange.

### Share buyback 2<sup>nd</sup> line (bought for cancellation)

Since 2010, the Company has announced openings of second trading lines on a yearly basis for the Company's shares on the SIX Swiss Exchange. The Company is always the exclusive buyer on these trading lines and repurchases shares for the purpose of subsequently reducing its share capital. These treasury shares are treated as a deduction from shareholders' equity at the average purchase price.

**Allocation of legal reserves from capital contributions**

Under Swiss tax law effective 1 January 2011, repayments of capital contribution reserves established since 1997 are no longer subject to withholding tax deduction. In order to establish the amount of capital contribution reserves that the Company may be able to repay to shareholders without being subject to the withholding tax deduction that applies to dividends paid out of retained earnings, in the general meeting on 15 May 2019 the board of directors proposed to transfer TUSD 2,494 (TCHF 2,429) of general reserves from capital contributions to accumulated surplus, in order to align the general legal reserves with the standard practice of the Swiss tax authorities. On 15 May 2019 the board of directors proposed to transfer TUSD 32,771 (TCHF 31,907) of other legal reserves to accumulated surplus.

As at 31 December 2019 the reserves from capital contributions that are available for distribution to shareholders amount to TUSD 64,965 (TCHF 62,841) (31 December 2018: TUSD 64,034, TCHF 62,344).

**10 Auditors**

PricewaterhouseCoopers Ltd., Zurich, are the auditors of the Company. They accepted the mandate in 2001. Daniel Pajer, the auditor in charge, took up office in 2015.

Total audit fees charged by PricewaterhouseCoopers for the 2019 audit of the Company to TUSD 69 (TCHF 68) (2018: TUSD 69, TCHF 68).

**11 Subsequent events**

The Company's financial statements are authorised for issue on 27 March 2019 by the board of directors. The annual general meeting called for 15 May 2020 will vote on the final acceptance of the Company's financial statements.

Since the balance sheet date of 31 December 2019 Castle Alternative Invest AG purchased 52,410 treasury shares on its ordinary and second trading line to the amount of TUSD 747. As of 26 March 2020 the Company held in total 1,253,440 treasury shares on its second trading line.

It is intended that approval for the cancellation of all registered shares repurchased will be sought at the annual general meeting in 2020.

Since the balance sheet date of 31 December 2019, there have been no material events that could impair the integrity of the information presented in the financial statements.

The first quarter of 2020 has seen a sharp increase in the volatility of all financial markets due to the COVID-19 pandemic. The Directors of the Company are actively monitoring the situation and, with the support of the AIFM, continue to manage the Company's assets within investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate the Company through this period of heightened uncertainty.

# Report of the statutory auditor

## to the General Meeting of Castle Alternative Invest AG Pfäffikon

We have audited the remuneration report (pages 80 to 83) of Castle Alternative Invest AG for the year ended 31 December 2019.

### **Board of Directors' responsibility**

The Board of Directors is responsible for the preparation and overall fair presentation of the remuneration report in accordance with Swiss law and the Ordinance against Excessive Compensation in Stock Exchange Listed Companies (Ordinance). The Board of Directors is also responsible for designing the remuneration system and defining individual remuneration packages.

### **Auditor's responsibility**

Our responsibility is to express an opinion on the accompanying remuneration report. We conducted our audit in accordance with Swiss Auditing Standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the remuneration report complies with Swiss law and articles 14–16 of the Ordinance.

An audit involves performing procedures to obtain audit evidence on the disclosures made in the remuneration report with regard to compensation, loans and credits in accordance with articles 14–16 of the Ordinance. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements in the remuneration report, whether due to fraud or error. This audit also includes evaluating the reasonableness of the methods applied to value components of remuneration, as well as assessing the overall presentation of the remuneration report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Opinion**

In our opinion, the remuneration report of Castle Alternative Invest AG for the year ended 31 December 2019 complies with Swiss law and articles 14–16 of the Ordinance.

## Remuneration report

The remuneration report contains information about the principles of remuneration, procedures for determining remuneration and components of remuneration for the board of directors and management of Castle Alternative Invest AG. It also details the remuneration awarded in 2018 and 2019 as well as the planned components of remuneration in 2020. It is based on the provisions of the Articles of Incorporation, the transparency requirements set out in Articles 13–16 of the Swiss Ordinance against Excessive Compensation in Listed Companies (VegüV) and Article 663b<sup>bis</sup> of the Swiss Code of Obligations, the SIX Swiss Exchange Directive on Information relating to Corporate Governance and the principles of the Swiss Code of Best Practice for Corporate Governance drawn up by Economiesuisse.

### **Principles of Remuneration**

- Transparency (simplicity, clarity)
- Adherence to market rates of executive pay  
(benchmarking of similar companies, qualifications and experience)

### **Governance**

The board of directors appointed a remuneration committee comprising Dr André Lagger (chairman), Dr Konrad Bächinger (member).

The remuneration committee draws up proposed remuneration guidelines for the board of directors. The members of the board of directors are entitled to reimbursement of their expenses incurred in the interest of the company as well as to compensation corresponding to their activities, as determined by the board of directors.

The remuneration committee meets as often as required, but at least once a year.

The Company appointed Benedikt Meyer as general manager, in accordance with Art. 716b CO and the articles of association and organisational regulations of the Company. This work for the Company on average takes up approximately 25 per cent of his working time.

### **Procedures for determining remuneration**

The level of remuneration awarded to the board of directors is based on sector and market comparisons. The remuneration committee also consults comparative figures and surveys of listed companies operating in the same sector.

### **Structure of remuneration**

The board of directors is compensated in cash for all of its duties, including expenses for ordinary and extraordinary meetings, committee activities and other extraordinary activities. Neither shares nor options were allocated in the reporting year.

### Remuneration policy

Remuneration of the board of directors and general manager of Castle Alternative Invest AG shall be effected in accordance with the provisions of the Articles, notably article 17. The board of directors determined that its members and member of management be remunerated annually as follows (pro-rata when a mandate is not executed for a full year):

Remuneration	2019 TCHF	2018 TCHF
Chairman	55	55
Deputy chairman	44	44
Committee chairman	44	44
Member	33	33
General manager	75	75

The remuneration of the board of directors shall be payable by the end of each quarter. The remuneration of the general manager shall be payable once per year in arrears.

Travel and other expenses related to attendance at board meetings shall be covered by an expense allowance for each meeting in Switzerland, physically attended, as follows:

Travel and other expenses	2019 CHF	2018 CHF
Switzerland based	250	250
Europe based	1,500	1,500
Overseas based	7,000	7,000

Expense accounts in excess of CHF 7,000 shall be signed off by the chairman (or, in the chairman's case, by the deputy chairman). Accounts below this amount may be signed off by the general manager.

Directors may furthermore be paid all other expenses properly incurred by them in connection with the business of the Company. The board may, in addition, grant special remuneration to any director who performs special or extra services to or at the request of the Company.

### Remuneration for financial years 2019 and 2018 (Article 14 VegüV)

The following tables show the remuneration for the members of the board of directors in the year 2019 and 2018.

The fee paid to the general manager comes at no extra cost to the Group as it is offset by a reduction of an equal amount from the management fees payable to LGT Capital Partners (Ireland) Ltd.

#### **Loans and credits to board members and the management (Article 15 VegüV)**

No further loans or credits by the Company or its subsidiaries for their activities have been granted to members of the board of directors in the financial year 2019.

#### **Compensation, loans and credits to related parties (Article 16 VegüV)**

No further compensation, loans or credits by the Company or its subsidiaries for their activities have been granted to any related party in the financial year 2019.

Dr André Lagger      Benedikt Meyer

27 March 2020

## Corporate governance

### 1. Group structure and shareholders

Castle Alternative Invest (“the Group”) consists of Castle Alternative Invest AG (“the Company”) and two fully consolidated subsidiaries as shown below and as listed in note 1 to the consolidated financial statements. The Company’s registered office is Schützenstrasse 6, 8808 Pfäffikon, Switzerland. Within the Group, only CAI is a listed company.

#### 1.1 Significant shareholders

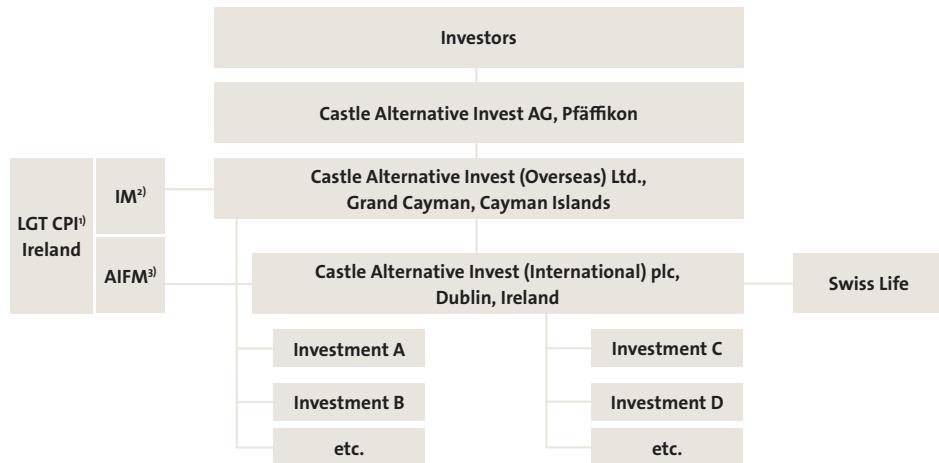

The shareholding structure of the Company as of 31 December 2019 is shown below:

- LGT Capital Partners (FL) AG, Liechtenstein, reported a holding of 24.72 per cent.
- LGT Capital Partners AG, Switzerland (as asset manager of LGT’s pension foundations), reported a holding of 22.79 per cent.
- Alpine Select AG, Zug, reported a holding of 21.23 per cent.

An update on shareholdings can be obtained from the SIX website at  
<https://www.six-exchange-regulation.com/en/home/publications/significant-shareholders.html>

The Group has not entered into any cross-shareholdings that exceed 5 per cent of the capital shareholding as voting rights on either side.

#### 1.2 Group structure

<sup>1)</sup> LGT Capital Partners (Ireland) Limited

<sup>2)</sup> Investment manager

<sup>3)</sup> Alternative investment fund manager

## 2. Capital structure

### 2.1 Capital

The Company's share capital consists of 6,297,099 registered shares with a par value of CHF 0.05 each. The shares are listed in Swiss Franc at the SIX Swiss Exchange in Zurich with ISIN CH0005092751 and valor number 509275.

Since 2010, the Company has announced openings of second trading lines on a yearly basis for the Company's shares on the SIX Swiss Exchange. The Company is always the exclusive buyer on these trading lines and repurchases shares for the purpose of subsequently reducing its share capital. These shares are treated as a deduction from shareholders' equity using cost values.

On 24 July 2017, the Company started the eighth share buyback for cancellation on a second trading line, as approved at the AGM 2017, to buyback a maximum of 594,551 shares.

On 12 November 2018, the board of directors of Castle Alternative Invest Ltd. ("the Board") decided to launch a new share buyback program on a second trading line at SIX Swiss Exchange. It started on 5 December 2018 (first trading day) and a maximum of 438,133 registered shares (maximum 5.57 per cent of the share capital and voting rights registered in the commercial register) could be purchased back.

At the annual general meeting on 15 May 2019, it was decided, among other things, to reduce the share capital from CHF 5 to CHF 0.05 per share or CHF 314,854.95 by means of a nominal value reduction. This repayment or distribution of the nominal value was completed on 18 November 2019 (ex-date 14 November 2019).

At the annual general meeting on 15 May 2019, the Board was also authorised to carry out further share buyback programs up to a maximum of 10 per cent of the share capital.

Based on that, on 5 June 2019, the Board decided to issue put options tradeable on SIX Swiss Exchange. Each shareholder was granted 1 put option free of charge for each registered share held. Every 20 put options entitled shareholders to tender one registered share with a nominal value of CHF 5 at the exercise price of CHF 24.00. This represented a premium of 31.15 per cent to the then current market price of the registered share. The put options were traded from 11 June 2019 to and including 25 June 2019. The put options were exercised on 27 June 2019 and net purchase price was paid on 28 June 2019.

In total, 308,544 registered shares were tendered which corresponded to 3.92 per cent of the share capital and voting rights registered in the commercial register.

On 27 June 2019, following the termination of the buyback via issuance of tradable put options, the Board decided to launch a new share buyback program on a second trading line at SIX Swiss Exchange. It started on 1 July 2019 (first trading day) and a maximum of 321,165 registered shares could be purchased back.

On 3 October 2019, the Board decided to suspend this share buyback program in order to decide on a buy back up to 10 per cent of its share capital as recorded in the Commercial Register on a further share buyback program by issuing tradeable put options.

On 7 November 2019 Castle announced a share buyback program by issuing put options tradable on SIX Swiss Exchange. The put options was traded from 22 November 2019 to and including 4 December 2019. Every 10 put options entitled shareholders to tender one registered share at the exercise price of CHF 17.90.

In total, 565,315 registered shares were tendered which corresponded to 8.98 per cent of the share capital and voting rights registered in the commercial register. The net purchase price was paid on 9 December 2019.

The suspended share buyback program via a second trading line was continued from 9 December 2019.

On 7 February 2020, the Board decided to terminate this share buyback program as the maximum allowed number of shares were bought back.

The buybacks mentioned above were all done for cancellation purposes.

The Company does not have conditional and authorised share capital. The Company has not issued any participation certificates (Partizipationsscheine), preference shares (Vorzugsaktien) or profit sharing certificates (Genusscheine). Shares of the subsidiaries are not listed.

A detailed overview of the capital structure is shown in note 7 of the Company financial statements. Changes in capital within the last two financial years can be seen from the consolidated statements of changes in shareholders' equity on page 23 of the 2019 annual report.

Share capital	2017	2018	2019
Outstanding shares	8,721,297	7,862,421	6,297,099
Nominal per share in CHF	5.00	5.00	0.05

The market capitalisation of the Company (ISIN: CH0005092751/Valor: 509275) per year end 2019 amounted to approx. TCHF 88,159. There are no outstanding convertible bonds or options issued by the Company or any of its subsidiaries on the Company's securities.

## 2.2 Voting rights, share registration

Each share confers the right to one vote. Entry in the share register of registered shares with voting rights is subject to the approval of the Company. Persons acquiring registered shares shall on application be entered in the share register without limitation as shareholders with voting power, provided they expressly declare themselves to have acquired the shares in their own name and for their own account and comply with the disclosure requirements of the Federal Act on Stock Exchanges and Securities Trading (Stock Exchange Act).

Entry of registered shares with voting rights may be refused in the following situations:

Persons not expressly declaring themselves as holding shares for their own account (nominees) shall be entered in the share register with voting rights without further inquiry up to a maximum of 1.5 per cent of the outstanding share capital available at the time. Above this limit, registered shares held by nominees shall be entered in the share register with voting rights only if the nominee in question discloses the name, address and shareholding of such persons for whose account the nominee is holding 0.3 per cent or more of the outstanding share capital at the time and provided that the disclosure requirements stipulated by the Stock Exchange Act are complied with. The board of directors has the right to enter into agreements with nominees concerning their disclosure requirements.

Legal entities, partnerships, other associations or joint ownership arrangements which are linked through capital ownership, voting rights, common management or similar, as well as individuals, legal entities or partnerships (especially syndicates) which act in collaboration with intent to evade the entry restrictions are considered as one shareholder or nominee.

The Company may in special cases approve exceptions to the above regulations. After due consultation with the person concerned, the Company is further authorised to remove the shareholder from the share register as a shareholder with voting rights with retroactive effect if they were effected on the basis of false information or if the respective person does not provide the information required.

No agreements with nominees were entered into, nor were exceptions to the above regulations granted in 2019.

### **3. Board of directors**

As of 31 December 2019, all members of the board of directors are non-executive. None of the members have been members of management of the Company or one of its subsidiaries over the last three years. Dr Andre Lagger is affiliated with LGT Group Foundation, which owns the investment manager that manages the Group's investments.

No other member of the board of directors has any significant business connections with any members of the Group.

The board is composed of the following members:

**Board of directors****Tim Steel,  
chairman**

The board considers that it is well represented with the balance and blend of skills, experience and expertise of its directors.

Tim Steel (British Citizen, 1952) was educated at Eton (Oppidan Scholar) and Trinity College, Cambridge (Philosophy and Law). He joined Robert Fleming as an analyst and was then a pension fund manager from 1974 to 1979. He joined Cazenove & Co in 1980 as an equity salesman and became Partner in 1982. Tim Steel ran the New York office from 1983 before returning to London in 1989 when he was made Head of UK Sales. He was appointed as managing director of Cazenove Capital Management Limited in 2000 and retired as vice chairman at the end of 2009. Since 2013 he has been chairman of Committed Capital. Since 2014 he has been a non-executive director of WH Ireland Limited and is currently serving as the chairman of that board. Tim Steel was elected at the general meeting held on 29 October 2008 and was reelected at the general meeting held in May 2019 for a term ending at the 2020 annual shareholder meeting.

**Dr Konrad Bächinger,  
deputy chairman and remuneration  
committee member**

Dr Konrad Bächinger (Swiss citizen, 1950) received a Ph.D. in law from the University of Zurich. He was admitted to the bar in 1977. He acted subsequently as legal counsel for the St. Gallische Creditanstalt and as head of legal department of Adolph Saurer AG. In 1984, he joined LGT Bank in Liechtenstein as general counsel. In 1989 he was appointed managing director and head of legal matters and project department. In 1990 he became member of the executive board of the bank, heading commercial banking and legal matters. In 1998 he became chief executive officer of LGT Capital Management. In April, 2001 Dr Bächinger was appointed to the Group executive committee of Liechtenstein Global Trust, now known as LGT Group Foundation. In 2006, he became a senior advisor of LGT Group Foundation and in 2010 he retired from LGT.

Dr Bächinger is also deputy chairman of the board of directors of Castle Private Equity AG and chairman and board member of several investment companies managed or owned by affiliates of LGT Group Foundation. Dr Bächinger was elected to the board of directors in 1997 and was re-elected at the general meeting held on May 2019 for a term ending at the 2020 annual shareholder meeting.

**Dr André Lagger,  
director and remuneration  
committee chairman**

Dr André Lagger (Swiss citizen, 1962) received a Ph.D. in business administration from the University of Berne and completed studies at the Swiss Banking School. He began his career at Union Bank of Switzerland in Zurich, moving to UBS London in 1994 as head of corporate development of UBS London. In 1997, he joined LGT Services in Zurich as head of corporate controlling. Subsequently, he became, in 1998, member of the executive board and chief financial officer of LGT Capital Management in Vaduz and, in 2001, chief executive officer of LGT Financial Services. Since October 2006, he is CEO of the business unit operations & technology of LGT Group Foundation.

André Lagger was elected at the general meeting held in May 2019 for a term ending at the 2020 annual shareholder meeting.

**Reto Koller,  
director and audit committee  
chairman**

Reto Koller (Swiss and US citizen, 1955) received M.Sc. degrees in business administration, finance and accounting from the University of St. Gallen in 1980 and the London School of Economics in 1981. He joined Winterthur Insurance's strategic-planning division in 1981. He moved to Winterthur Reinsurance Corp. in New York in 1984, where he was vice president – fixed income investments and operations manager until 1989. In 1990, he took over as president and chief investment officer, North America for Winterthur Investment Management Corp. in New York. He resigned from Winterthur North America in 2007. Since 2008 he has been principal of Hale International LLC, New Canaan, CT, USA, an investment consulting firm.

Reto Koller was elected at the general meeting held on 29 October 2008 and was re-elected at the general meeting held in May 2019 for a term ending at the 2020 annual shareholder meeting.

**Kevin Mathews,  
director and audit committee  
member**

Kevin Mathews (Irish citizen, 1960) received a Joint Financial Services Diploma from the Institute of Bankers at University College Dublin in 1995 and is a Qualified Financial Adviser (QFA). He joined the Irish Department of Labour in Dublin prior to working in key account management for Svenska Handelsbanken in Luxemburg between 1986 and 1995. He was managing director of LGT Bank (Ireland) between 1995 and 2006. He is currently providing consultancy and advisory services to banking, investment funds, local government and charitable organisations. Mr Mathews is also chairman of the board of directors of Castle Alternative Invest (International) PLC and chairman and board member of several investment companies managed or owned by affiliates of LGT Group Foundation.

Kevin Mathews was elected at the general meeting held on 29 October 2008 and was re-elected at the general meeting held in May 2019 for a term ending at the 2020 annual shareholder meeting.

### **3.1 Responsibilities**

The principal responsibilities of the board of directors as defined in the Swiss Code of Obligations and the Company's articles of association and organisational regulations are:

- (i) organisation of the Company's main structures, including planning, management and reporting procedures and its internal risk control systems;
- (ii) determination of the investment policy and supervision of its implementation; and
- (iii) appointment and supervision of the Company's general manager and the investment manager.

Board members share these responsibilities jointly. No specific tasks have been allocated to individual members of the board.

An audit committee has been set up, consisting of two board members: Reto Koller (chairman) and Kevin Mathews.

The audit committee's duties include:

- (i) selecting the auditor (for approval at the shareholders' meeting), as well as determining and supervising the terms of their engagement;
- (ii) monitoring the integrity of the financial statements; and
- (iii) reviewing the internal control systems in place in the Company.

A remuneration committee has been elected by the shareholders' general meeting, consisting of Andre Lagger (chairman) and Konrad Bächinger. The remuneration committee draws up proposed remuneration guidelines for the board of directors. Please refer to the remuneration report on pages 78 to 81 for further details regarding the duties of the remuneration committee.

### **3.2 Organisation**

The board of directors has delegated the operational management of the Company to Benedikt Meyer as general manager (see next page), in accordance with Art. 716b CO and the articles of association and organisational regulations of the Company.

The board has delegated the management of the Company's assets in accordance with the investment policy and guidelines to LGT Capital Partners (Ireland) Limited, the investment manager (see next pages).

The board resolves by majority vote with the presence of a majority of members. Decisions can be taken by phone conference or circular resolution unless a board member requests otherwise. The board of directors meets as often as business matters require, as a rule three times a year.

The board considers agenda items laid out in the notice and agenda which are formally circulated to the board in advance of any meeting as part of the board papers. The members of the board may request any agenda items to be added that they consider appropriate for board discussion. In addition each director is required to inform the board of any potential or actual conflict of interest prior to board discussion. In 2019, three board meetings, one remuneration committee meeting and four audit committee meetings were held, with an average duration of between two and four hours. Board meetings are attended by representatives of the investment manager and the general manager. In addition to the physical meetings, various ad hoc meetings and phone conference calls were held throughout the year to deal with matters substantially of an administrative nature and these were attended by the directors available at the time.

In addition to board meetings, individual members of the boards of the Company and of the investment manager and the general manager interact frequently.

### **3.3 Information and control**

In addition to information received in board meetings, the directors receive monthly reports on the course of business, including the status of the portfolio. Directors may request additional information or details through the general manager.

## **4. Management**

### **4.1 General manager**

The board of directors has delegated the operational management of the Company to Benedikt Meyer as general manager.

#### **Benedikt Meyer**

Mr Meyer (Swiss citizen, born 1983) is an executive director at LGT Capital Partners Ltd. Prior to joining LGT Capital Partners in 2010, Mr Meyer worked in product management and investor relations for Partners Group AG in Zug and London. In 2002, Mr Meyer completed an extensive three year training program as an accountant. Mr Meyer holds a Diploma of Higher School of Business Studies HF (BSc in Economics). He is fluent in English and German, and conversant in French.

### **4.2 Investment management**

LGT Capital Partners (Ireland) Limited, Dublin, has been appointed investment manager of the Cayman Subsidiary and AIFM of the Group's Ireland Subsidiary. The investment manager is responsible for the management of the Company's assets in accordance with the investment policy and guidelines. The investment manager does not have any duties or responsibilities in relation to the operational management of the Company.

The main responsibilities of the investment manager are:

- (i) implementation of the investment policy, including identifying, purchasing and selling investments;
- (ii) monitoring of investments; and
- (iii) analysis and forecast of cash flows.

The role of the investment manager is governed through investment management agreements with the Company subsidiaries. These agreements are for an initial period expiring on 17 July 2019. However, these agreements shall remain in force and effect thereafter unless and until terminated by one of the parties giving not less than 90 calendar days' notice in writing to the other party. The compensation of the investment manager is shown in note 7 and 18 of the consolidated financial statements.

The board of the investment manager is affiliated with LGT Group.

The fee paid to the general manager is offset by a reduction of an equal amount from the management fees payable to LGT Capital Partners (Ireland) Ltd. Other significant fee arrangements for the management of the Company's assets are listed in note 18 of the consolidated financial statements.

## 5. Compensation, shareholdings and loans

The policy regarding the remuneration of the board of directors is detailed within the remuneration report, on pages 80 to 83 of this report.

Travel and other expenses related to attendance of board meetings were covered by an expense allowance for each meeting in Switzerland, physically attended, as detailed within the remuneration report, on pages 80 to 83 of this report.

No further compensation, fees, shares, options or loans have been made by the Company or its subsidiaries in respect of the activities of directors during the course of the year under review.

## 6. Voting and representation restrictions

### 6.1 Voting restrictions

The articles of association do not contain any statutory voting rights restrictions other than those disclosed in section 2 above. No exceptions were granted in the year under review.

The convocation of the general meeting of shareholders and the addition of items to its agenda are to conform with the regulations of the Swiss code of obligations.

### 6.2 General meeting of shareholders

The next shareholders' meeting is scheduled for 13 May 2020 and shall be convened by publication in the Swiss Official Gazette of Commerce at least 20 days prior to the date of the meeting.

Shareholders registered with voting rights in the shareholders' register until and including 30 April 2020 shall receive, with their invitation to the annual general meeting, a registration card to apply for an admission card and voting documentation. No new share registrations with voting rights shall be made in the shareholders' register between 5 May 2020 and the end of the general meeting.

Shareholders representing at least 10 per cent of the share capital may request that an extraordinary shareholders' meeting be convened. Shareholders representing shares with an aggregate nominal value of at least CHF 1 million may request that an item be included in the agenda of the shareholders' meeting. Such requests must be made in writing at least 35 days before the date of the meeting, specify the item to be included in the agenda and contain the proposal on which the shareholder requests a vote.

### **6.3 Statutory quorums**

The articles of association contain the following voting quora that extend beyond the thresholds of simple and qualified majority prescribed in the Swiss Code of Obligations:

- the easement or abolition of the restriction of the transferability of the registered shares;
- the conversion of registered shares into bearer shares and bearer shares into registered shares; and
- the abolition of restrictions in the articles of association concerning the passing of a resolution by the shareholders' meeting.

The dissolution of the Company with a liquidation requires a resolution of the shareholders' meeting passed by at least 80 per cent of all share votes.

### **7. Change of control**

The Company has stated in article 6 of its articles of association that a party acquiring shares above the legal threshold potentially triggering a public offer in the Company is not obliged to make a public offer to acquire all shares of the Company pursuant to articles 32 and 52 of the Stock Exchange Act (opting-out clause).

The members of the board of directors, the general manager and the investment manager do not benefit from contractual clauses on change-of-control situations.

### **8. Auditors**

PricewaterhouseCoopers Ltd., Zurich, are the auditors of the Company. They accepted the mandate in 2001. Daniel Pajer, the auditor in charge, took up office in 2015.

Total audit fees charged by PricewaterhouseCoopers for the 2019 audit amounted to TUSD 127 (2018: TUSD 131).

Supervision of the audit takes place in various meetings and discussions between the auditors and board members throughout the year as well as through the internal audit department of LGT Group.

Principal means of information between the external auditor and the board of directors (in particular through the audit committee) is the annual audit report submitted by the auditor to the directors. The report is generally discussed with representatives of the auditor at the spring board meeting that also resolves on approval of the annual report. Prior to discussion of the auditors' report, audit committee meetings – typically in the form of conference calls – take place to discuss progress of the audit and any specific matters noted. Preparation of the audit (which includes an update on changes in accounting and reporting standards and audit requirements by the auditor) usually take place in autumn, either in the form of the auditor's presence at an audit committee meeting or by means of a phone discussion.

## **9. Information policy**

The Company publishes an annual report per 31 December and a semi-annual report per 30 June. Furthermore, the Company publishes monthly portfolio updates.

The Company publishes these and other documents on the Company's website [www.castleai.com](http://www.castleai.com). Subscribers listed on the Company's distribution schedule generally receive these documents (or references to their website location) upon publication by e-mail. Ad-hoc messages and announcements (e.g. regarding general meetings) are also distributed by e-mail. Several documents are available in print form. Please contact representatives of the Company through the website or by letter or phone to be added to the mailing list.

The financial calendar can be downloaded from the Company's website [www.castleai.com](http://www.castleai.com).

### **9.1 Non-applicability/negative disclosure**

It is expressly noted that any information not contained or mentioned herein is non-applicable or its omission is to be construed as a negative declaration (as provided in the Corporate Governance Directive and the commentary thereto).
